TEN CENTS A WEEK

SENATORS MAKE PLANS TO VISIT STRIKE DISTRICT

Unless Treaty Vote Develops Committee Will Make Trip This Week.

FOSTER WILL APPEAR BEFORE COMMITTEE ON THURSDAY

Consents to Go to Washington to Attend Committee Hearing.

Pittsburgh, Sept. 30.—Senator Kenyon, chairman of the senate labor committee investigating the steel strike, wired union headquarters today that the committee hoped to visit the Pittsburgh district the latter part of this week or the first of next, dependent upon the voting on amendments to the peace treaty.

The committee requested William Z. Foster, secretary of the steel workers' national committee to appear before the committee in Washington Thursday morning at 10 o'clock. Mr. Foster said he would appear.

To all appearances the steel workers strike has virtually settled itself down to one of endurance.

Yesterday's efforts by each side to make a breach in the ranks of the other having failed to cause a serious break, the steel companies are now prepared, according to some of the officials, to begin a wearing down process to end the strike.

Strike leaders are on their guard against this method of attack and today expressed confidence that the ranks of the strikers would not only remain solid but would be increased as the campaign of the army of organizers in the Pittsburgh district continues.

Without a single exception steel companies that made public reports of operations today claimed men are steadily returning to work. They assert they are coming back in small numbers and are being placed on jobs without any confusion. Tonnage, it was also claimed, is steadily mounting. No figures, however, are obtainable regarding the number of men at work or the amount of tonnage being produced.

CLAIMS CONFLICT AT BETHLEHEM MILLS

Bethlehem, Pa., Sept. 30.—The second day of the strike at the Bethlehem Steel company's plant brought conflicting statements from the two sides to the controversy. Union representatives claiming that 20 per cent of the men were out and officials of the company declaring that the situation was satisfactory.

WHITLOCK IS NAMED BELGIAN AMBASSADOR

Washington, Sept. 30.—Brand Whitlock, of Ohio, now minister to Belgium, was nominated today by President Wilson to be ambassador to that country.

Mr. Whitlock who has been in this country for some time, and has been appointed as one of the American officials to receive King Albert of Belgium, upon his arrival at New York and to tour the country with him.

REPS. AGAIN RAVING OVER FIUME INCIDENT

Washington, Sept. 30.—After further sharp criticism by Republicans of the senate and house today of the landing of American soldiers at Fiume, after Italian forces had taken possession of the port, the senate adopted a resolution by Senator New, Republican, Indiana, requesting President Wilson to transmit a report of the incident to the senate.

Although not opposed by the Democrats, the resolution caused a lively row in which Senator Hitchcock, Democrat, Nebraska, charged the Republicans with "heckling" President Wilson and also with deliberate filibustering to delay action upon the peace treaty.

TIGHTEN BLOCKADE AGAINST RUSSIANS

Paris, Sept. 30.—(Havas.)—Consideration was given by the supreme council yesterday to the necessity of not only maintaining the blockade of Russia, according to the Bolsheviks, but also of strengthening the blockade of the Baltic region, which is considered the difficulties which might possibly result if Germany should renew relations with Russia, when the treaty of peace comes into effect.

AUGIE REGRETS HE HASN'T SEATS FOR 150,000 MORE

Cincinnati President Sees Unprecedented Interest In Great Series.

FEW SEATS ARE OFFERED FOR SALE BY SPECULATORS

More Than 400 Baseball Writers Will Be Provided with Seats.

Cincinnati, Sept. 30.—With the stage set for the opening of the world's series here tomorrow, Cincinnati assumed a gala appearance today as the throngs of visitors began to arrive to witness the initial struggles of the baseball classic.

Hotel corridors were jammed to the limit, and the congestion grew greater as the day advanced and the special trains began to arrive. While supporters of the Cincinnati club were naturally concerned over the prospects of the favorites for victory in the first game, the all important question on almost everybody's lips was: "Where can I get an extra ticket?"

"Where can I get an extra ticket?" With every one of the 25,000 seats sold, the unlucky applicants for tickets were willing to pay almost any price for a seat to the opening game. If ticket speculators had any seats for sale, there were a few individuals, however, who demanded from \$50 to \$75 for a set of box seats for three games. The first value of these tickets was \$16.50. The holders of these tickets were not particularly anxious to sell even at the prices asked.

August Herrmann, president of the Cincinnati club, locked the doors of his office and paced the floor. He declared that he never thought it was possible for so much interest in a world's series and regretted that Redland Field did not have a seating capacity of 200,000 instead of 55,000.

"We have not got a quarter enough seats," President Herrmann said, "but we have done the best we possibly could to put a seat in every available space. I never saw so much interest and enthusiasm shown in a world's series as being displayed in this one. If the interest is the same in Chicago, the series ought to surpass any ever fought between major league clubs."

Members of the White Sox, under the leadership of "Kid" Gleason, arrested one of the most serious since the allies landed in Siberia.

The two Americans in uniform and on official business went to Iman, a town 170 miles north of this city. While they were at a hotel there, a detachment of Cossacks entered and arrested the Americans, claiming they were not provided with identification papers.

Capital Circles Believe Debate Monday Indicates Vote Will Not Be Reached This Week.

Washington, Sept. 30.—Senate leaders today refused to predict when the Fall amendment to the German peace treaty, regarded as likely to bring about the first test of strength in the treaty controversy, will be brought to a final vote.

Yesterday's debate which encompassed a number of subjects including mob rule, radicalism, and the situation in the United States of representation on most of the treaty-created commissions, would not be brought up for final action until Monday.

It is hoped that a vote might be reached before the week end.

England Acts to Stop Traffic Congestion

London, Sept. 30.—Congestion in railroad traffic caused by the strike called off Friday is expected to be relieved today by the running of an increased number of trains. Volunteer workmen are reported coming forward to run the trains and the government has invited citizens to act as special constables in emergency.

Attempts to derail of trains occurred yesterday for the first time since the strike began, and two trains were derailed near Aberdeen. Minor incidents are reported at various other places.

Government officials have issued regulations providing for price fixing and restricting the consumption of staple foods. Motor lorries are bringing milk and food stuffs into the city.

KNOX FARMERS KICK ON NEW PHONE RATE

Mt. Vernon, Sept. 30.—When the Mt. Vernon Telephone company issued a new schedule of rates, calling for toll charges between rural exchanges in the county, rural subscribers held mass meetings.

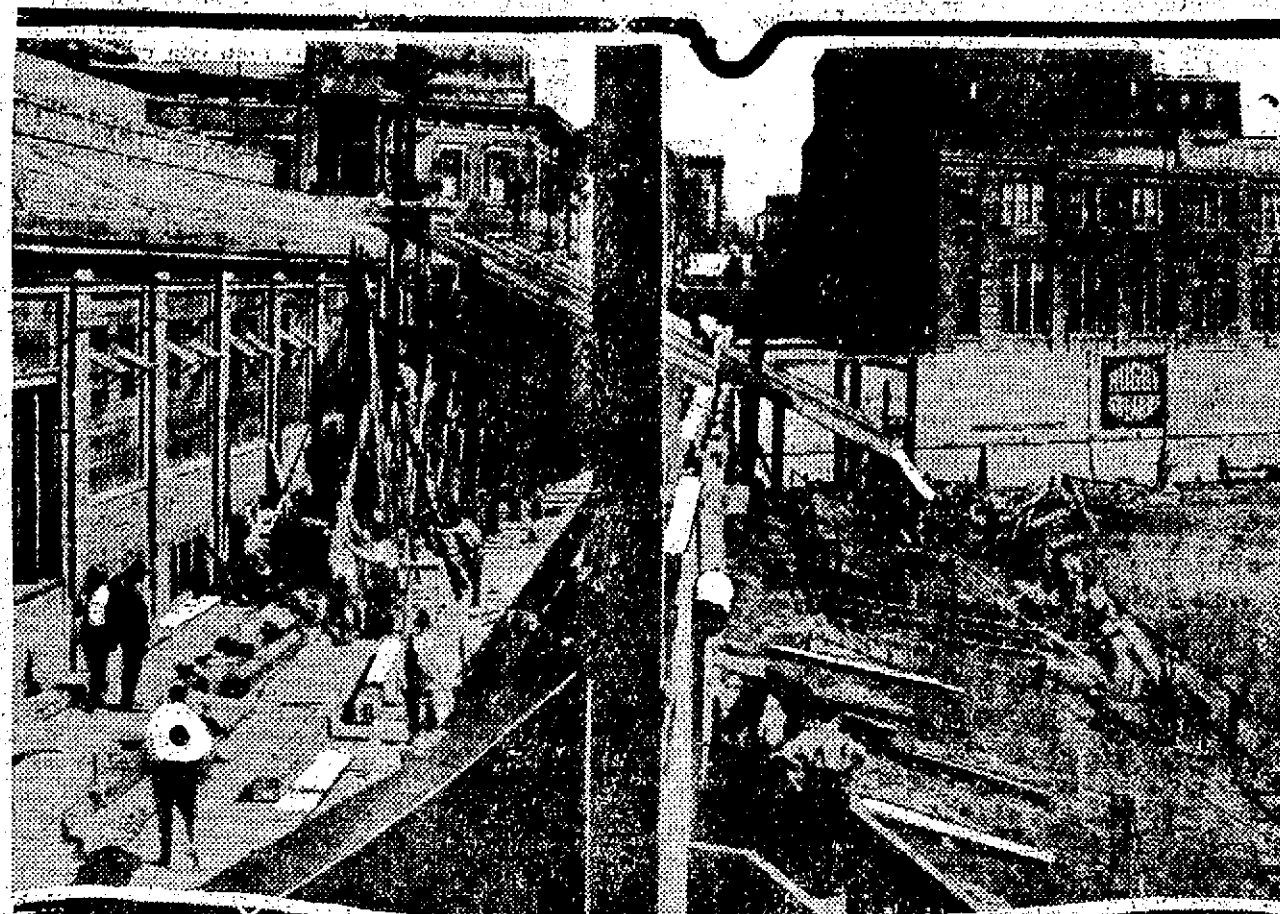

Yesterday petitions from various districts were presented to the company and to the county commissioners, asking that the telephone lines and poles be removed, if the order is not rescinded.

An injunction suit to stop collection of the toll charges will be instituted, an attorney for the subscribers says.

STEAL UNION FUNDS

Toledo, Sept. 30.—More than \$100 belonging to the treasury of the Lake Seamen's Union here was taken by highwaymen who last night held up the treasurer, A. E. Finch. He says he thought the men were his friends and they suddenly set upon him as they were taking a stroll.

HOW CINCI BALL PARK WAS ENLARGED FOR SERIES.

Building temporary seats out over streets at Cincinnati ball park.

To accommodate as many of the Red fans as possible Garry Herrmann got permission of the city to use two streets adjoining the outfield sections of Redland field for increasing the seating capacity of the park. The picture shows how temporary stands were built out over the streets.

COSSACKS BEAT YANK CORPORAL; U. S. GENERAL DEMANDS APOLOGY

Captain In U. S. Army Arrested By Russians But Escapes Japs Threaten to Take Sides With Slavs When Clash Is Imminent.

Vladivostok, Friday, Sept. 19.—Major General William S. Graves, commander of American forces in Siberia, has demanded an apology from General Rosenoff, in command of Russian troops in Priamur province, for the arrest of Captain L. P. Johns, of the 27th regiment, and Corporal Benjamin Sperling, of the 31st and the flogging of the latter by Cossacks, commanded by General Kalmikoff. An investigation of the conduct of a Japanese officer at Iman, the place where the arrests took place, has also been begun by the Japanese high command. The incident, which occurred September 5, is considered one of the most serious since the allies landed in Siberia.

The two Americans in uniform and on official business went to Iman, a town 170 miles north of this city. While they were at a hotel there, a detachment of Cossacks entered and arrested the Americans, claiming they were not provided with identification papers. Captain Johns managed to escape, and catching a moving train went to Spassk, where he reported to the American officer in command. A detachment of 150 Americans from the 27th regiment at once entrained and went to Iman to effect Sperling's release and on arriving there, took three Cossacks as hostages. The Japanese high command has been referred to the state department for subsequent action.

when a Japanese major interceded for the Cossacks, stating, it is alleged, that in the event of hostilities between the Americans and Cossacks the Japanese troops at Iman would side with the latter. He at last told the Americans that Sperling had been taken to Khabarovsk, where General Kalmikoff had his headquarters. A telegraphic demand for Sperling was sent to Khabarovsk, and a reply was received that he would be released at once. The Americans then returned to Spassk, taking their hostages with them.

JAP INCIDENT NOT REPORTED. Washington, Sept. 30.—Secretary Baker said today that Major General Graves, commanding the American forces in Siberia, had informed the department that an officer and enlisted man had been held by Cossacks and released upon his demand, and that the matter had been referred to the state department for "subsequent action."

KEELEY SUES TO GET PAVING JOB

Alleges He Was Low Bidder On Three Street Contracts But Says City Intends to Give Work to Another.

M. T. Keeley & Son have filed a writ of mandamus in common pleas court against the city of Newark, J. Edward Wilson as the director of public service, Lee S. Pemberton, as director of public safety and Herbert A. Atherton, mayor of Newark, the three named constituting the board of control.

The petition alleges that the defendants have entered into an unlawful conspiracy with the Federal Asphalt Paving company to stifle and discourage competitive bidding in the city of Newark for street paving and other public work and to award all such work unlawfully to the Federal Asphalt Paving company.

The petition recites that Keeley & Son's bid on the proposed paving of Woods avenue was \$10,952.50 and that the Federal Asphalt company's bid \$11,084.55; that the Keeley bid on the paving of Central avenue the sum of \$20,940.50 and the Federal Asphalt company \$21,238.40. The petition also claimed Keeley was low bidder on the sewerage and paving of Harrison street, and that notwithstanding this fact and that the material specified by plaintiff was superior to that of the Federal Asphalt company, and that the Keeley's were lowest bidders on all these streets, the board of control refused to award them the contract and proposes to award the contract of said streets to a higher bidder, The Federal Asphalt Paving company.

DON'T CHANGE CLOCKS TONIGHT; IT'S OCT. 26

Columbus, Sept. 30.—Sunday, October 26, not October 1, is the date when the national daylight savings law ends, according to advices received here from Washington. On this date clocks will be turned back one hour except in cities where by ordinances councils have provided for adoption of eastern time, in which event the clocks will not be changed.

LEAGUE IS ISSUE IN THIS ALABAMA ELECTION

Gadsden, Ala., Sept. 30.—With the league of nations as one of the main issues and with both Democratic and Republican forces well organized, a congressional election is being held in the seventh district today for a successor to the late Representative John L. Burnett.

L. B. Rainey, Democrat is opposed by C. D. Kennamer, Republican. Both sides concede the result will be close.

REST BENEFICIAL TO PRES. WILSON

Physician Announces Improvement In Condition of President After Quiet Day.

Washington, Sept. 30.—President Wilson arose early this morning and appeared refreshed by a night of rest, Secretary Tumulty announced.

Although the President's condition precludes his taking any active part in directing the peace treaty fight in the senate he has shown much interest and received a report of the situation from Secretary Tumulty late last night. Senators directing the administration fight for ratification of the treaty without amendment or reservation advised the President through Mr. Tumulty that the treaty would not be amended and that no reservations which would require its re-submission would be adopted.

Washington, Sept. 30.—Another day of complete rest was prescribed for President Wilson today. Yesterday's prohibition against work or worry which enabled his physician, Dr. Grayson, to announce last night that Mr. Wilson was "slightly better" was understood to have convinced White House officials that this course of treatment would be the most effective cure for his attack of nervous exhaustion.

At the orders of Dr. Grayson not only have all engagements for the near future been canceled, but it has been decided that for the present, the president will not be permitted to see any of the senate leaders regarding the treaty. It is understood the subject of the treaty will not be permitted to come to his attention at all for several days.

BRITISH TROOPS OCCUPY RUSS CITY

Vladivostok, Sept. 30.—Troops from the British fleet in the Black Sea have been landed at Odessa and have occupied the city, according to advices received in Budapest.

WAR DEPT. ARRANGES FOR RIOT TROOPS

Washington, Sept. 30.—Authority has been given commanding generals of military departments to furnish troops necessary for the protection of lives and property in case of disorders in the limits of their departments. Such protection can be furnished only upon request from the proper state officials, the instructions from Secretary Baker said.

CLEMENCEAU IS GIVEN VOTE OF CONFIDENCE

Paris, Sept. 30.—The Clemenceau government was sustained on a question of confidence in the chamber of deputies today. The premier's demand for postponement of discussion of the motion of Deputy Andre Lefevre, instructing the government to seek the adding of a rider to the Versailles treaty for the further disarmament of Germany, was agreed to by a vote of 262 to 189.

ALABAMA MOBS SHOOT 3 BLACKS POSSE AFTER ONE

Negro Who Shoots Officer Is Killed In His Bed In Hospital.

TWO OTHERS TAKEN FROM OFFICERS AND SHOT TO DEATH

New Jersey Posse Hunts For Colored Man Who Attacks Woman.

Montgomery, Ala., Sept. 30.—Governor Kilby intervened today in the situation growing out of the lynching here yesterday of three negroes, shot to death by mobs. Judges of the circuit court and the sheriff were called into conference to determine action to be taken by the county or state officials. A fourth negro, Ben Miller, former soldier was shot and wounded early today on a down town street. He reported four white men had attempted to get him into an automobile and he was shot when he refused to go with them.

Montgomery, Ala., Sept. 30.—John Temple, negro, who last night shot and fatally wounded Patrolman John Barbare, and who was wounded by the officer, was shot to death in a hospital shortly after 2 o'clock this morning by a small band of white men. He was the third negro to die by lynch law within a period of 12 hours. Miles Phifer and Robert Crosby, the latter a discharged soldier having been shot to death by a mob five miles from the city yesterday afternoon.

Still another negro, Bird Astor, who was with Temple when Barbare was shot, was being sought by a posse and it was believed his capture would result in more violence.

There was no connection between the lynching of Phifer and Crosby and the killing of Temple. The first named two, charged with crimes against white women, were taken from three deputy sheriffs by a mob of about 500 men, five miles from the city, the Spanish method of execution "ley de fuge" was used. The negroes were told to run for their lives and as they started were shot down. The mob then quickly dispersed. As a mob of about 500 men, five miles from the city, the Spanish method of execution "ley de fuge" was used. The negroes were told to run for their lives and as they started were shot down. The mob then quickly dispersed.

Temple resented his arrest and shot the officer, but not until he himself had been wounded. In the meantime Astor fled. The police to prevent a possible lynching, announced that Temple had been killed. Later it became known that this was only a ruse and that Temple had been taken to a hospital.

A small band quickly organized and not more than half a dozen men entered.

(Continued on Page 2, Col. 4)

CHARGE COUNTY IS VIOLATING HEALTH RULE

Hamilton, Sept. 30.—Charges that the county commissioners have violated the state law at the county infirmary tuberculosis hospital in the report of the committee of investigation by the boosters club. The committee was told that the infirmary tuberculosis hospital is not a county institution but for inmates of the infirmary. It was charged the woman in charge was unqualified for nursing, that it was admitted at the infirmary that the rules of the state health department are unknown and no attempt is made to conform with them. Patients at the tuberculosis hospitals are permitted to visit the infirmary and Hamilton at will, it was stated in the report.

HAWAIIAN VOLCANO ERUPTS; PEOPLE FLEE

Honolulu, Sept. 30.—Mount Mauna Loa on Hilo Island burst into new eruption late last night and a wide stream of lava began pouring down the Kona side destroying many homes. The residents of the Kona side are reported fleeing to the sea, which is 30 miles distant.

"Honolulu, Sept. 30.—The mountain which is thirteen thousand feet high, first became active three days ago, first smoke and gases came from the crater. During the last two days, the eruption had been subsiding until late last night when the lava began pouring down the Kona side. During an eruption, a cloud of ash and smoke was sent twenty thousand feet into the air when the peak burst into eruption. Mauna Loa's crater is 12,000 feet across.

125 AMERICANS VOTE TO QUIT STEEL STRIKE

Youngstown, Sept. 30.—One hundred and twenty-five American employees of the Ohio Works of the Carnegie Steel company late yesterday voted to return to work tomorrow morning. The action was taken at a meeting at which they formed a club, which they announced would be permanent. Large accession to their numbers are expected by Thursday night, when officers will be elected, it is stated. The men who voted to return stated that they expect to be employed in preparing the mill to operate later in the week.

THIEVES DODGE BULLETS. Toledo, Sept. 30.—Though under a rain of shots from Police Sergeant Beske thieves early today escaped from a hotel here, with several cases of loot. The cases were being taken out through a window when the police-man discovered the theft.

YOUNGSTOWN MEN IN ORGANIZATION TO FIGHT STRIKE

Will Be Kept Free From Company Control, Leaders Say

STRIKERS DENY IT WILL BE POTENT FACTOR IN FIGHT

Superintendent Says Plant Is Ready When Men Want to Return.

Youngstown, Sept. 30.—Employees of the Ohio Works of the Carnegie Steel company here, who voted yesterday to return to work, today gave out a statement saying that they had formed an organization which would be kept free from company control, and which would be used to represent the men in dealings with the company. The statement said that upwards of 200 men attended the meeting, that 125 had voted to return to work to prepare the plant for reopening and that the remainder would return when the mill was ready.

F. H. Grosse, superintendent of the plant, said last night that 500 men were doing unimportant repair work in the mill and while it could not be prepared for opening this morning it would be "ready for the men when they want to come back."

S. H. Hammersmark, secretary of the strike headquarters, said today that he did not believe there are 500 men in the plant and declared that if there were they had "been brought in from outside contrary to the advice of the city officials."

Activity inside the mill continues to be indicated by clouds of smoke rolling from its stacks, but officials will not say whether preparations are being made to reopen soon. Enough time has elapsed since activity was first noticed, mill men say to heat up the furnaces for operation.

TREATY RATIFICATION ENDS WAR DRY ERA

Washington, Sept. 30.—Although the war department declared in a statement today that "the state of war and the progress of demobilization are at an end" war time prohibition cannot be lifted until after the ratification of the peace treaty, in the opinion of Attorney General Palmer.

The prohibition law provides that it shall remain in force until after the termination of the war and the demobilization of the army. Mr. Palmer has held that the state of war does not end until the peace treaty has been ratified. President Wilson took a similar position in asking congress early in the year to repeal the war time prohibition law in so far as it effected light wines and beer.

The war department's statement as to the end of demobilization was made in connection with the statement that officers of the regular army were about to be returned to their normal peace time rank and that the 10,000 emergency officers still in the service must be discharged in order to reduce the commissioned personnel to the 15,000 authorized by a recent act of congress.

USE OF TROOPS IS RESENTED IN ENGLAND

London, Sept. 30.—Employment of troops to protect railroad property is being resented by strikers at some places, apparently through the fear that the soldiers may be used to strike breakers. Speakers at a meeting last night at Nuneaton, Warwickshire, warned the government that serious consequences would follow the employment of troops. Dock laborers at Newport, Monmouthshire, have threatened to strike if soldiers interfere with railway men.

The Herald, organ for labor, featured what it describes as a "ominous movement of troops" and complains editorially that "everything is being done to give rise to violence, to what on the men's part is a peaceful, lawful movement for better wages."

Distribution of troops to various centers with machine guns and many rounds of rifle ammunition, is reported, but there is nothing to indicate more than precautionary measures to protect depots and other property.

GETS INVOICE FOR CAR OF CANNED VEGETABLES

Mayor Atherton has not received word from the army supply depot at Chicago as to whether the car of vegetables which he ordered had been loaded and shipped. He received a message today to the order and the car may arrive any day.

The mayor also made a requisition for a car load of canned fruit which would include pineapple, plums, peaches and apricots, but has not yet received official acknowledgment of the order and the car may arrive any day.

FOOD BLOCKADE OF GERMANY ON AGAIN

Paris, Sept. 30.—The blockade of Germany which was threatened by the allies in case the German troops of General von Der Goltz were not removed from the Baltic region, will be put into effect, it is declared, will be permitted to start for Germany until further orders are issued.

FEDERAL TROOPS KEEP OMAHA MOB SUBDUED

Omaha, Neb., Sept. 30.—Additional military forces, 11 officers and 250 men from Camp Funston, Kansas and 20 officers and 550 men from Camp Grant, Ill., today joined the federal troops already on duty, as a result of the race rioting of Sunday.

Major General Leonard Wood, commander of the central department of the army also arrived to take charge of the military operations.

The city was quiet during the night and there was no sign of trouble, a heavy rain serving to keep people off the streets. This fact was considered a great aid to the authorities, who had taken precaution to guard against a fresh outbreak of Sunday's rioting, which resulted in the burning of a negro, the death of one white man, injury to many others, heavy damage by fire to the county court house and an attempt on the part of a mob to lynch Mayor Edward P. Smith.

Reports from the hospital, where Mayor Smith is confined as a result of the injuries inflicted by the mob where that his condition was improving. Decision was expected to be made today by judges of the county district court as to whether there shall be a special grand jury called to investigate the riots. Governor McKelvie and Attorney General Davis are expected to start on inquiry to fix, if possible responsibility for Sunday's lawlessness.

Twenty-four negroes dressed in civilian clothes wearing special police badges, carrying arms, appeared at 24th and Cummings streets last night. They said they had been sworn in as

special officers by a city official. Soldiers took them to a fire station, took their weapons away and released them.

SENATORS MAKE

(Continued From Page 1)

factory, and that all their plants were operating virtually at full capacity. Union leaders after a meeting in Allentown late last night said their reports showed that three rolling mills, the mechanical repair department and brass foundry were completely shut down and that with a few exceptions all other departments were seriously crippled. These leaders declared that many of the workers who reported for duty yesterday did so merely to get their tools and that they would join the strikers ranks today.

MINOR DISORDERS ARE STAGED IN CHICAGO DIST.

Chicago, Sept. 30.—After a day of futile efforts of the big steel mills in the Chicago district to induce a sufficient number of employees to return to work in order to operate on a much larger scale, chief attention today turned to the United States Steel Corporation plants at Gary. With many minor acts of violence reported to the police last night, further developments today were anxiously awaited. Union leaders were perturbed as they heard repeated reports that the temper of the strikers was rising.

Union leaders were concerned further with a report that Mayor Hedges of Gary, who yesterday issued a proclamation promising protection to all who

desired to return to work, would place a ban on all meetings. He did notify the secretary of the board of health to take precautions against a spread of Spanish influenza.

It was stated officially that the American Sheet and Tin Plate company mill said to employ 4,000 of the highest paid skilled workmen in the district would close within a week for extensive repairs.

A committee from the Illinois branch of the American legion, the organization of veterans of the world war, today was to go to Gary to investigate reports that a group there known as the Loyal American legion was operating as a post of the American Legion as strike guards.

A strike to call for state or federal troops resulted from the clash of approximately 2,000 strikers and their wives with a group of policemen and guards during the evening exodus of 350 workers at Waukegan, Illinois. The trouble today was described as fraught with possibilities, as it was stated the strikers had threatened further attacks on the special officers and workers.

At South Chicago and Joliet the situation remained virtually unchanged. John Fitzpatrick, chairman of the national committee to organize steel workers again asserted his belief in ultimate victory for the strikers.

On the other hand industrial heads said that men in many sections of the Chicago district desired to resume work but were deterred by fear of violence.

SOUSA WANTS TO SHOOT WITH LOCAL TRAP MEN

When Lieutenant John Philip Sousa, arrived in this city Sunday he was met at the train by Lawrence Krieg and Manager Geo. M. Penberg of the Auditorium theatre. Krieg has known Lieutenant Sousa for a number of years the bandmaster having formerly been president of the American Amateur Trap Shooters' Association and the Newark man president of the local association.

Shortly before the afternoon concert at the Auditorium Mr. Krieg on behalf of the local gun club presented Sousa with a bouquet of American Beauty roses and the great musician was most than pleased, remarking that it was the second time that he had received such a favor on the part of the Newark Gun club and that he would always remember his visit to this city. He hoped some day to visit Newark on a week day, so that he might try conclusions with some of the city's crack shots.

AUGIE REGRETS

(Continued From Page 1)

Arrived from Chicago early today and went direct to their hotel. The White Sox will make a last workout at Redland Field this afternoon. The Reds also will have a light practice to keep their muscles limbered up.

All members of the Cincinnati club were reported to be in perfect condition with the exception of Heinie Groh, the captain and third baseman, whose broken finger is still bothering him to a certain extent. The injury, however, will not keep him from starting the series and he hopes to be able to play all the way through.

While Manager Moran has not definitely picked his pitcher for tomorrow and did not care to make any official announcement, it is generally accepted that he will start either Walter Ruecher or "Slim" Sallee. Sallee pitched two games against Chicago in the world series of two years ago and Moran believed that his style will give the White Sox the most trouble.

That Eddie Cicotte, the pitching "ace" of the White Sox staff, will be Manager Gleason's selection for the opener is accepted as a certainty. The remarkable little "knuckle ball" pitcher, with more than 25 victories to his credit this season is reported to be primed to face the Reds in the initial combat.

Manager Gleason, however, expects to make no announcement of his selections until the time for starting the game tomorrow.

All arrangements for the series were being completed today. The press headquarters at the Hotel Sinton will be opened at 1 o'clock this afternoon at which time tickets to the press stand will be issued to those entitled to them. Accommodations have been made for 400 writers.

Uncle Sam looks out for tax from scalpers

Chicago, Sept. 30.—Forty men from the underworld, including George Dunlap, chief deputy, have been put to work to see that speculators in world's series baseball tickets turn over to the government 50 percent war tax on every ticket disposed of at above its face value. This action followed posting of signs in the downtown district "world's series bought and sold here."

Speculators who do not comply with the law by writing the names and addresses on the reverse side of the pastebards and forwarding the tax within one month, "will be given the full penalty," Mr. Dunlap said today. Despite all precautions taken to prevent "scalpers" obtaining the tickets, many having fallen into their hands.

Alabama mobs

(Continued From Page 1)

the hospital, overpowered the two guards and shot the negro to death as he lay in bed.

A special grand jury likely will be called to investigate the two lynchings. Circuit Judge McCord announced today.

Believe negro is surrounded in swamp

Merchandiseville, N. J., Sept. 30.—Capture of the negro who is alleged to have assaulted Mrs. Mary Notsey, of this place, and for whom a posse of more than 100 armed men searched throughout the night, was expected momentarily. Headed by Sheriff Lippincott, of Burlington county, the posse early last night surrounded a swamp where the negro was believed to have fled.

Threats of violence have been made should the negro be captured, but the authorities declared they were able to protect and that "no cruelty" would be tolerated.

Meredith's Vanity.

"George Meredith, as his friends used to tell with amusement," writes Robert Lynd in the London Nation, "was a vain man. Someone has related how, in his later years, he regarded it as a matter of extreme importance that his visitors should sit in a position from which they would see his face in profile."

Remember One's Limitations.

In the moral world there is nothing impossible, if we put a thorough will to it. Man can do everything with himself; but he must not attempt to do too much with others.—Humboldt.

Colloquial Verdict.

"Let's call it off," said the alienist as he finished a patient for insanity.—Boston Transcript.

The Bungler's Way.

To do evil, that good may come of it, is for bunglers in politics as well as morals.—William Penn.

Hats as Bedroom Slippers.

Old felt hats which are too far gone to be worked over into hats again are now utilized for bedroom slippers.

Not Valued.

"Politeness costs nothing"—perhaps if it did there would be more of it.—Boston Transcript.

An inventor has designed a curved muff for children on the idea that it fits their arms better than straight ones.

GUN COTTON BASIS OF SILK

French Inventor, After Long Study, Has Evolved a Truly Wonderful Artificial Product.

According to Count Hilaire, inventor of artificial silk, which is now produced by vast factories in Switzerland, Belgium, France, England and the United States, it has for its basis nothing less than gun cotton. One of the greatest problems he had to solve in perfecting it for everyday use was to render it nonexplosive.

The gun cotton under the chardonnet process is first dissolved in a mixture of alcohol and ether and then spun through fine capillary tubes by means of hydraulic presses.

Other chemical processes give it incombustible and nonexplosive qualities, together with the easiness and the transparency of the finest silk from Japan or China.

It took just 30 years of the 80 which Count Hilaire has completed to perfect his discovery and render it of actual and practical commercial value.

The illustrious chemist and scientist has just been elected to the supreme honor of membership in the French Academy of Sciences for his discovery of how to put one over on the silkworms. During the war he had been decorated by the French minister of war with the Cross of a Chevalier of the Legion of Honor for discoveries relative to the manufacture of high explosives growing out of his researches made primarily to render artificial silk stockings nonexplosive.

Styles keep women young

Desire for Latest and Prettiest Things an Evidence of Wisdom, According to Authority.

"Woman has gained her political and intellectual freedom," said Emil W. Kohn in an address before the New York Retail Jewelers' convention at Saratoga. "She has declared in public and in private that never again will she be the slave of man. But I venture that she will remain the willing slave of fashion."

The woman who declares she would rather be dead than out of fashion expresses a thought in every woman's mind. As it is a man's privilege to pay the bills, he may at times express displeasure. That man, however, who is permanently and chronically displeased at or indifferent to his wife's pretty hat, becoming gown and beautiful jewelry is a brute and should be caged with other wild animals.

"To be contented with the thoughts and things of yesterday is to stand still, and stagnation breeds decay. To be sensitive to new ideas is to be youthful. Woman's desire to possess jewelry that is new and fashionable and beautiful is an evidence of growth, and growth is the law of life."

Safe Light for Miners.

Nowadays the up-to-date miner carries a package of electricity about with him while underground. It is a small storage battery attached to the back of his belt, and is connected by a cord with a lamp fastened to the front of his cap.

The lamp, provided with a reflector, throws quite a flood of light in front of the miner. But its chief advantage is absolute safety.

In olden days miners (who must, of course, have light) carried about with them open-flame lamps. These caused innumerable disastrous accidents through ignition of coal dust or gases. Sir Humphry Davy's invention of a safety lamp whose flame was protected by a wire gauze saved an immense number of lives. It is in common use today, but the electric mine lamp is better and more convenient.

To Photograph a Star.

A discovery may be made photographically by some astronomer this fall or winter in the constellation Gemini, according to Isabel M. Lewis of the United States naval observatory. It will be a star of the fifteenth magnitude in an elliptical orbit and has been difficult to find and identify because in the Milky Way there are countless others that are brighter.

The orbits of all the planets excepting Mercury, are nearly perfect circles, and discovery of a planet exterior to Neptune that moves in a greatly elongated ellipse will strike one more blow at the nebular hypothesis, which assumes, says Miss Lewis, that the planets' almost circular orbits are due to the fact that originally they were thrown off as rings from a contracting solar nebula.

Irregularities in the motion of Neptune indicate that the unseen planet is drawing near to Neptune and during this period of conjunction astronomers hope to determine the mass of the new body.

Reclaiming Waste Places.

Twenty years ago a news story from Washington says land in the Louisiana parish of Tangipahoa was worth 50 cents an acre and human life was worth scarcely anything at all. It was a case of cause and effect.

Then the immigrants came. They were chiefly Italians and Hungarians. They had lived at home on land that was poorer than the Tangipahoa. They practiced intensive cultivation. Today their parish is one of the greatest strawberry farming districts in the United States.

Land that sold for 50 cents is now worth \$100 an acre. And the school authorities have practiced intensive cultivation on the human products of that land. Americanization has made life worth more there than it ever was before.—Binghamton News.

Columbus—All but two of 15 guard companies demobilized.

HOW ARE YOUR KIDNEYS? ASKS DR. CAREY, SPECIALIST

Famous Kidney and Bladder Physician Retiring From Active Practice Appoints Evans' Cut Rate Drug Store Agent in this Vicinity For His Great Medicine, Marshroot.

During his forty years of constant practice Dr. Daniel G. Carey has helped many thousands of suffering kidney diseased men and women in all sections of the country to regain robust health.

Don't take any chances with your kidneys. If you have the faintest suspicion that your kidneys are weak or your bladder is irritated, the wisest thing you can do is to get a bottle of Dr. Carey's Marshroot at once.

Remember, Marshroot is not a cure, all or patent medicine, but is Dr. Carey's most wonderful prescription, which he now gives to the world and his army of patients only because he has decided to retire from active practice.

The truest signals often indicate that the kidneys are ailing and need attention. Dry skin for instances and little specks floating before the eyes.

Sometimes the feet feel heavy, as if your shoes were full of lead.

Often the joints ache or you have quick, darting pains shooting through the back or side.

Then again that frequent desire to empty the bladder, cold, clammy feet and just a little puffiness under the eyes.

Occasionally the hands or feet swell slightly and the palms of the hands are moist.

No regular practicing physician has devoted more time to the study of kidney and bladder diseases than Dr. Carey. He himself asserts that many thousands of cases of Bright's disease and even diabetes, could have been cured by Marshroot, if it had been taken in time. Hereafter you can always get this effective prescription at Evans' Cut Rate Drug Store and all reliable pharmacists the country over. Keep in mind the name, Dr. Carey's Marshroot. No other medicine can take its place.—Adv.

FAIL TO DECIDE ON HOME PROJECT

The King's Daughters' City Union Sends Bucyrus Home Problem Back to Industrial Circles For Solution.

At the called meeting of the city union of The King's Daughters yesterday the matter of taking up the campaign to secure funds for a new home to be maintained at Bucyrus was referred back to the several circles in the city.

Recently The King's Daughters of the state have purchased a home to be used for dependent girls at Bucyrus and the various circles have been asked to subscribe from \$50 to \$100,000 for the purpose of maintaining it. The matter was discussed by the circles of the city, and then a union meeting was called.

Mrs. Sarah Gagle, state president of The King's Daughters attended the meeting and explained the project. No decisive action could be secured at the meeting and it was again referred to the different circles for their consideration.

At Granville the Cup of Cold Water Circle of the King's Daughters is conducting a drive to raise funds for the benefit of the home. Shares in the home are sold at \$1 each. The stock yields no dividends, the purchaser of a share simply being a donor.

The movement was inaugurated by the Bucyrus Circle which purchased Monnet home by Frank Stivers. A cash payment of \$19,000 for the property was made through the trustees of the King's Daughters. In its present condition it will accommodate 30 girls but it is proposed to build an addition to increase its capacity.

The Ohio King's Daughters seek a fund of \$50,000 for improvements and hope to increase that amount to \$100,000 to provide an endowment fund.

The purpose of the movement is to establish a non-denominational home and school for dependent girls. This purpose is outlined in a statement made by Mrs. Sarah F. Gagle, of Columbus, state president of The King's Daughters, she says:

"The need of such a home for girls is tremendous. It is a far greater thing to give dependent girls a real home, with the right opportunities, educational, social and religious, so that they may grow up as individuals, to society, than it is to establish institutions for their care and correction after they have become delinquent through neglect."

"It is our intention to take little boys under ten years of age, as we find a great need to help them, too. Of course after that age we will have to make some other arrangements for them."

"Girls will be accepted who have lost one or both parents. The King's Daughters will have them educated and equipped for life work. Of course we shall expect at least a partial payment of the cost of the child if the remaining parent or relative can afford to do so. We will only take boys when it seems necessary to prevent breeding up a family."

The state convention of the King's Daughters will be held October 7-9, and it is hoped by that time the full quota will be raised.

Mrs. Gagle believes that the new home for dependent girls will fill a real need, and that it will take care of many who might finally be brought into juvenile court.

WOMEN GOLFERS IN NATIONAL TOURNEY

Shawnee on the Delaware, Pa., Sept. 30.—When the 32 women golfers who qualified for the national championship test off here this morning, it was freely predicted that the winner of the upper bracket would be the next title holder. The luck of the draw has put most of the recognized potential champions in the lower half, together with the present title holder, Miss Alexa Stirling of Atlanta.

PASTOR GETS COLLEGE PLACE.
Alliance, Sept. 30.—Rev. O. W. Dunn, pastor of the Epworth Methodist Episcopal church, has been chosen field secretary of Mount Union college and will assume his new duties at once. President W. H. McManis announced today. His first task will be to aid in completing the fund for the erection of the memorial athletic auditorium on the Mount Union campus in honor of the world war soldiers of Alliance, Louisville, Sebring and community and Mount Union college.

TWINS ENTER COLLEGE.
Alliance, Sept. 30.—Three sets of twins are among the students of Mount Union college this year. The Saltsman twins, Richard and Isaac, freshmen, of S. Saltsman, a banker of Carrollton. The Misses Bertha and Mary Bennett of East Liverpool are also registered as freshmen. Dwight and Wade Hart of Wadsworth are juniors. Teachers find it difficult to distinguish between the Saltsman twins and the Harts. The Hart brothers are world war veterans and football players.

MT. UNION ENROLLMENT.
Alliance, Sept. 30.—Mount Union college has its biggest enrollment this fall, with 330 in the collegiate classes and 125 in the conservatory of music. President W. H. McManis announced today. Freshmen total 130. Many of the upper classmen are returned war veterans. The dormitories are crowded and the applications of several girls had to be returned.

LEADING MEN IN ENGLAND'S GRAVESTRIKE SITUATION.

Sir Eric Geddes, above, and James Henry Thomas.

Sir Eric Geddes, minister of transportation, is in entire charge of the government as far as dealing with the railroad strike which has tied up England's transportation system is concerned. According to recent dispatches, Premier Lloyd George has given him, free rein. James Henry Thomas, secretary of the National Union of Railwaymen, is the big man of the three labor leaders figuring in the strike. Thomas has been aligned with Arthur Henderson, British labor member in parliament.

START DRIVE FOR NEW MEMBERS OF LOCAL Y

The opening of the fall activities of the Y. M. C. A. with its gymnasium work, its industrial work, its boys' work, and its religious work, sets the Y. M. C. A. members of the association into its motion on a membership campaign during the month of October.

A group of the 'lives' young men of the Y met last night to set up the campaign for more members. Secretary Lender spoke on the aims of the Y. M. C. A. for the year and also mentioned briefly the goal of the industrial department of the association. Mr. Cieser gave a two minute chat on why more men do not take advantage of the Y. M. C. A. for the year and also mentioned briefly the goal of the industrial department of the association.

Special attention was called to gymnasium exhibition and swimming exhibition Friday night. As Physical Director Olson has outlined a program for that night, consisting of regular class work with a few stunts added, new members as well as prospective members will get a good idea of the type of work and fun to be had in the local Y gymnasium.

Another stunt for the month in connection with the membership campaign will permit any member of the Y. M. C. A. to bring a friend on the gymnasium floor or into the swimming pool without any extra charge.

YANKS KEEP SLAVS AND ITALIANS APART

Rome, Sept. 30.—American marines or blue jackets are maintaining order in the city of Spalato, Dalmatia, where Rear Admiral Philip Andrews is stationed with his flagship, the Pittsburg, according to reports reaching this city.

It is indicated in reports that feeling is running high in Spalato and that the Americans have been forced to intervene between the Italians and Jugo Slavs.

The Flume issue will be laid before the Italian people on November 16; together with the other matters on which the government wishes to obtain an mandate. The parliament was dissolved yesterday and will reassemble on December 1.

Telegraph advices from Flume report that Gabriele D'Annunzio, in command of the insurgent garrison of the city has stated that he considered himself in a "state of war" with Jugo-Slavia. His declaration was made after the head of the French mission had demanded that D'Annunzio restore telegraphic communications with Agram, the Croatian capital, which D'Annunzio had interrupted.

MISREPRESENTING THE TREATY.

President Wilson has been condemned for saying some sharp things about his Republican opponents who are criticizing the peace treaty. But when you consider the way these opponents misrepresent the League of Nations constitution, it will be seen that the President might have been excused had he shown less self control.

For instance, take the claim that the League Constitution gives six votes to the British empire and only one to the United States. Treaty opponents harp over and over again on this point. Readers of many newspapers sincerely believe that is a fair statement.

Yet anyone who has read the League Constitution understands that it gives practically all power into the hands of an executive council, in which a unanimous vote is required for action, and in which the United States has one vote and the British empire only one. The assembly of the League, in which the British colonies have representation, is practically only a debating society. As these colonies are substantially independent, it is only fair to give them some chance to be heard in the deliberations of this assembly.

As a matter of practice, the United States cannot help exercising a preponderating influence. All nations know that the co-operation of this country is a necessity to make the league a success, and any course that will alienate this country will kill the league.

Yet in spite of all this, jaundiced partisans opposed to President Wilson keep insisting that the British will have six times as much power in the league as this country. And a lot of people who read only their favorite newspapers believe it. However many of them have had their eyes opened to the truth by the President's illuminating speeches delivered on his western trip.

RAILROAD CONGESTION.

Railroad Director Hines has issued an appeal to the public for help in avoiding the railroad congestion that threaten to be so serious before the coming winter. The amount of work to be done by the railroads this fall is enormous, greater than ever before.

Then on the other hand, transportation equipment is deficient. Little has been done for six to eight years to improve and enlarge railroad facilities.

During most years when business has been good, there have been serious freight blockades through and following the crop moving season. Business men and workers often aggravate the difficulty by their indifference. The ardor of the business man who was so anxious to see freight movements expedited, may cool off when he gets the needed freight car on his own siding. Perhaps then, having got the thing he immediately needs, he takes his own time, about unloading the rest of the shipment, when he ought to get it out at once and let the car go on elsewhere.

And it takes a lot of hustle on the part of foremen and workers to keep freight going in rush times. If the gangs drag along thinking only of quitting time and the pay envelope, the side tracks and junction points will soon pile up with cars. When cars for different destinations get mixed, it takes endless time to sort them out on the insufficient sidings. An hour of overtime work

to keep tracks cleaned today may save several hours next week.

The industries can't run if the railroads are blocked. Raw material must be delivered with prompt regularity. If the finished goods are not carried on time, orders are countermanded, losses are created, and the beginning of industrial disaster exists. So everyone who has anything to do with freight should take hold and do his part to keep it moving.

FOOD RAISING.

The fall is the time when the farmers plan their operations for the next year. The size of the 1920 food crop will be pretty well determined within the next weeks. If the farmers go ahead with hope and confidence, there will be an abundant food supply next year.

If they become discouraged and think it time to reduce their enterprises, production will fall off prices are likely to be higher than ever.

During the war the farmers were appealed to to plant big crops on the ground of patriotism. They responded nobly. Every bushel of grain and every pound of meat they produced was badly needed. They have been richly rewarded for their efforts, not merely in satisfaction at performing a civic duty, but in good prices for all their products.

Many farmers are by nature pessimists. One old timer remarked about this time some years before the war, that he did not believe he dared raise a pig that year. He had for a number of years raised one pig, but times looked so bad that he could not see how he could get out of it, and the pigpen was empty that year. That kind of farmer has long since been left in the shuffle, but those of his type are still hesitating whether they will attempt to do business on a small scale or a full scale.

They will still serve a patriotic cause by going the limit to produce good crops. The food scarcity still exists and will for years. Everything that can be raised and stored will sell at prices far above those prevailing before the war. The people who win out in this life are those who look ahead with hope and confidence and plan large things. That applies to farmers as well as to any other business men.

WILL CHIVALRY DISAPPEAR.

A speaker at the conference of women physicians at New York, declared a few days ago that women are not playing fair. She argued that they are demanding the right to live on equality with men, and at the same time they hold on to privileges given them when they were weak and dependent.

Take the typical question whether men should give up seats to women in public conveyances. To see all the men planted on the seats absorbed in newspapers, while a line of women are hanging on the straps, still looks boorish to a great many.

The average young woman of today looks strong and vigorous, just as well able to stand as the average man. For an elderly man to yield to one of these robust creatures does look a bit like affection. The young fellows should enjoy giving up to them. They should not limit their courtesy according to whether the girl is pretty or not. The girl with the plain face may have the brains and the wit.

Married women still carry heavy burdens, particularly in these days when most women do their own housework. They do not probably as yet have as much physical strength as the average man. The larger share of the race's ideals is still centered in these women, and they have a keener perception of the deeper things of life. Even if these women are not entitled to special treatment on the ground of physical weakness, they should have preference for what they are and for the service they render.

The mothers of the race ought not to be compelled to jostle with the crowd in a quite even competition. When chivalry dies, womanhood is not given the honor to which it is entitled.

The man who shows this deference feels more self respect, it must tend to elevate his standard of good manners, and it still has to be considered a leading mark of the gentleman.

Pershing really represents the triumph of a single idea, long discredited by the warriors of all Europe, said idea being that the American soldier is the hardest fighting and most formidable animal on two legs.—Richmond Times-Dispatch

DEMOCRATIC TICKET.

Health is the greatest of all possessions, and 'tis a maxim with me, that a hale cobbler is a better man than a sick king.—Bickerstaff.

Turn 'Em Back.

Backward, turn backward
Your watches tonight;
Tomorrow you need not
Get up till it's light.

His Interest Was Purely Personal.

Aunt Celine says: Hadda Soule, which has been teaching our school, has went to Newark for a few days, which her nephew was berried there, an' little Gotta Waito is anchoring in her place. Gotta having jest came home from graduatin'. I must say she tries oodle hard to teach them kids rite. Yesterday she read them a article about makin' a shes to shingles an' says she, "Now, children, that would be fine for asbestos won't burn, you no. Think how grand it would be to have shingles that would not burn," she says. At this Sam Slapper razed his hand an' says he, "If you're sure of that, teacher, would you please try to get my father to lay in a few?" he says.

Oh, Boy!

A youth, evidently hesitating on the brink of a momentous experience, asks a Pittsburgh paper whether it is nice for a young man kiss a girl, we suppose he will start out on a regular orgy of it when he finds out how nice it actually is

LITTLE TALKS ON THRIFT

By S. W. STRAUS, President of the American Society for Thrift.

There is an anciently accepted principle of human experience that mankind is continually moving in cycles which follow each other in the following sequence: wealth, poverty, war, peace, thrift.

The lesson for us to take home to ourselves at this time is that instead of being driven through the brutal forces of circumstance to practise thrift, we should take up these practices voluntarily and from patriotic motives. Let us not wait for the whip-lash of necessity.

Thrift is a virtue that should be practised of one's own volition and not at the demands of the stern taskmaster of necessity. We should eliminate waste of all kinds at this time because it is the only way in which we shall permanently and effectively restore the proper economic balance.

The nation to-day as a whole is exceedingly prosperous. Our exports are greater than ever before. All persons who desire work can secure it and the scale of wages was never as high as at present. While the cost of living is also high, as judged from the standpoints of previous conditions, the average American family is able to live well. We must not forget that the standard of living in this country has gone up tremendously in the last few years. How many thousands of families, who a few days ago were living in modest circumstances, are to-day enjoying a better environment, have finer and more comfortably furnished homes, automobiles, pianos and every luxury!

All about us we find manifestations

ENTERTAINING A KING.

(Cleveland Plain Dealer.)
How shall a king be entertained? Admittedly, it is no small occasion when a royal person comes as guest. Democracy is embarrassed.
The issue is precipitated by the forthcoming visit of King Albert of Belgium. Happily, the king is something of a democrat himself and may not insist on all the ceremonies commonly associated in the public mind with such occasions as that; nevertheless, a republic does not wish to appear boorish or ignorant of the niceties of royal etiquette.

It is not recalled that America ever before entertained a real king—that is, not in person. It furnished entertainment for one King George for a time under the able direction of George Washington as chairman of the entertainment committee, but the king was not present and the character of the entertainment offers no precedent to solve the present problem. What kind of a pageant, show or spectacle would be fit to put before a king?

Baschall, some one suggests. The very thing! King Albert, being a regular fellow and having learned baseball from the Yanks in Belgium, might enjoy nothing better than to see the Chicago Americans around the Cincinnati Nationals. Nothing is more thoroughly American than baseball, nothing more democratic than a crowd of fans in action.

After all, there is no cause for worry. Kings are just men and when a sensible chap like Albert—statesman, warrior and ruler, though he is—comes to see us, let's treat him as we would any other gentleman come 3,000 miles to pay his respects and be our guest for a time. The intricacies of etiquette need worry no one.

ROCKEFELLER VIEW OF LIFE.

(Cincinnati Enquirer.)
To verify all statements attributed to great men in the columns of our daily papers would be a herculean task. Some of them, however, possess the unmistakable earmarks of veracity; so distinctive are they, so characteristic of the men to whom they are ascribed.
Take this one which has been charged upon John D. Rockefeller: "I have just begun to live!" In it there is that imperturbable optimism, that unshaken faith in "things as they are," which has marked his whole career. Life has always seemed to

Honor to Spare.

No one makes pilgrimages to lay flowers on the grave of the inventor of the alarm clock.—Detroit Journal.
But every morning, from north to south, from east to west, his requiem is rung.

Correct.

Though she's pretty, a saint do not book her.
She may be the slickest of crooks; A girl can be quite a good looker, And not be as good as she looks.
—Luke McLuke.

Her cheeks may be pink, her hair yellow, She may look about twenty, gad-zooks! But do not forget, my dear fellow, She may not be as young as she looks.

Did You Know

That nation was one of the substances employed by the ancient Egyptians for embalming mummies? It was obtained from lakes in the vicinity of Zakkah, a village west of the Nile. There are eight of these lakes, which are below sea level, and the nation is obtained by evaporation. This substance, together with the lakes from which it is obtained, is mentioned in the texts of the 12th dynasty, 1800, B. C.

Fall.

Although the price of things may go up higher than the moon, I shan't complain, for well I know The fall is coming soon.
—Newark Advocate.

And if the fall is in accord With such as me, I'll say, With grateful heart I'll praise the Lord, On next Thanksgiving day.
—I. G.

Telephone Service.

ALL SATISFIED EXCEPT OFFICIALS

It is certainly significant that in all the time we have been trying to bring to light any objection to present telephone rates on the part of Newark telephone users, we have been continuously and significantly unsuccessful.

One citizen, when asked why this was so, said: "The reason the people of Newark are satisfied with the present rates is because they are getting good telephone service. You are only fighting a few people over in the city hall."

It would appear that this is so. As long, however, as the "people over in the city hall" have the authority of all the rest of the people of Newark, what they do becomes important.

It is a strange situation in which the city solicitor (or the city council, if it is the city council, as the solicitor claims) finds himself fighting for a technicality, which if affirmed will reduce wages, while the great body of the people are satisfied with rates as they are.

THE NEWARK TELEPHONE COMPANY.

Charles E. Hollander,
General Manager.

Products that Packers Sell

Their Number Grossly Exaggerated

The Federal Trade Commission has published a list of some 640 articles said to be sold by the packers.

This list is ridiculously padded in order to scare people into the belief that the packers are getting control of the food supply of the nation.

For example, the list includes not only "beef sides" and "beef cuts," but also over 60 other items of beef products and by-products.

Over 90 articles listed are not sold to the outside trade but are raw materials and supplies, such as brick, cement, etc., used by Swift & Company in carrying on its business.

Glaring duplications appear, such as "sardines" and "canned sardines"; "butterine" and "oleomargarine"; "dried sausages" and "drysausage," etc.

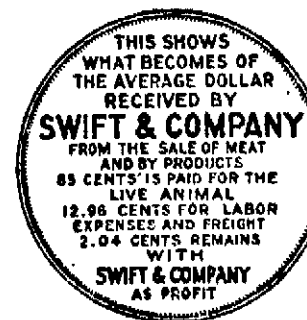

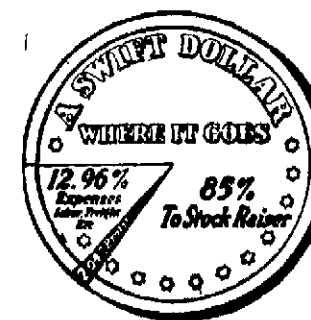

The list includes 37 kinds of sausage; 4 different kinds or preparations of beef tongue, etc., etc.

Simmered down, Swift & Company handles in addition to meats and meat by-products, only butter, eggs, cheese, poultry, canned goods, lard substitutes, and to a very small extent, dried and salt fish. And the proportion which we handle of the total supply of any one of these is absurdly small.

Do you want to be fooled by such misleading and ridiculous statements of the Trade Commission? Do you want radical legislation based on such absurd evidence?

Let us send you a "Swift Dollar,"
It will interest you.

SOCIAL AFFAIRS

The Foreign Missionary society of the East Main Street M. E. church will meet at the home of Mrs. M. E. Davis, 75 Chestnut street, on Thursday afternoon at 2 o'clock.

The Francis Willard W. C. T. U. will hold its regular meeting on Wednesday afternoon at 2 o'clock. Reports of the county convention will be given.

Mrs. C. E. Anderson, Mrs. T. S. Humphreys, Louis Glover of Coshoc-ton; Miss Ida Rudy, of Millersburg, Mrs. Roe Robinson of Minneapolis, Minn. and Mrs. Mary Dundy of Newark, were entertained Sunday at the Sherwood hotel by Robert A. Crawford, auditor of the Home Building Association.

Mrs. W. G. Corne will entertain on Monday afternoon, with a party for her daughter Elizabeth.

Miss Louise Reichert will entertain the members of the G. A. B. club at her home in South Sixth street this evening.

The members of the Colonial Sewing Circle will be entertained at the home of Mrs. Charles Daily in Chestnut street on Wednesday afternoon.

At the first meeting of the Public Library board for the fall season the election of officers was held. Mrs. Charles Allen was again named president, Mrs. William Zentmyer, secretary, Mrs. Lloyd Millisor treasurer, and Miss Robbins auditor. The next meeting will be held the last Thursday in October.

Announcement has been made by Mr. and Mrs. Charles D. Gumm of Galesburg, Ill., of the marriage of their daughter, Bessie Jane Gumm to Mr. Adelbert Beard Conley, on Saturday, September 20.

Mr. Conley's home has been in Newark, but during the past few years he has been engaged in the automobile business at Jacksonville, Fla. Mr. and Mrs. Conley will be at home after October 10 at 1525 Post street, Jacksonville.

Mr. and Mrs. L. J. Hessin of Bolton were surprised Sunday morning when Mr. Hessin's children and grandchildren gathered at their home with well filled baskets to spend the day. The party spent the day at Mountbushers Park. Dinner was served to 32. Those present were Mr. and Mrs. L. J. Hessin, Mr. and Mrs. Herbert Hessin and son Merle, Columbus, Mr. and Mrs. Albert Hessin and daughters Turilla and Elogon and son Marion, Black Run, Mr. and Mrs. Morton Gill and daughters Mary and Louise, Nashville, Miss Lennie Hessin, Columbus, Mr. and Mrs. Charles Denman and daughter Nan Elizabeth and sons Donald and Charles Jr., Newcomstown, Mr. and Mrs. Guy Hessin and son W. Arthur, Cambridge, Mr. and Mrs. Leo Hessin and daughters Helen and Kathleen, Cambridge, Mr. and Mrs. John Wiley, Cambridge, and Mr. and Mrs. Alward Hessin and son Billy A., Black Run.

Dr. and Mrs. P. H. Cosner entertained at dinner Monday evening for Mr. and Mrs. Thomas Coulter of Dayton. The table was centered with a basket filled with golden rods, and candles of the same color were used. The guests were Mr. and Mrs. Coulter, Mr. and Mrs. Cary Bricker, Mr. and Mrs. James Johnston and Mr. and Mrs. Clifford Frye.

Mr. and Mrs. Clifford Frye are entertaining the members of their evening club this evening at their home in North Fourth street.

The L. C. B. A. will meet this evening at 28 South Fifth street.

A number of friends of G. I. Burrell and family very pleasantly surprised them last evening with a housewarming. They have just the past week moved from Woodside to 22 the east side and several of his friends surprised them.

Those present were: Mr. and Mrs. R. E. Carman and children, Dill Keeckley and family, Mr. and Mrs. M. Davis, Mr. and Mrs. E. Z. Taylor, Mr. and Mrs. Lyons, Mr. and Mrs. Marion Long, Mr. and Mrs. A. B. Painter, Mr. and Mrs. William Keeckley, Forest Keeckley, Mr. and Mrs. J. T. Reese, Francis Taylor, Nina Keeckley, Margaret Lyons.

Mr. John Gutridge was surprised by a number of his friends at his home two miles east of Linville on Monday, the occasion being his 51st birthday anniversary. The hours were pleasantly spent by the following guests:

Mr. and Mrs. A. J. Grubaugh, Mr. and Mrs. H. E. Duthimer, Mr. and Mrs. Patterson, Mr. and Mrs. Oren Orr, Mr. and Mrs. Frank Lawrence, Mr. and Mrs. Gene Cummings, Mrs. Ella Ladd, Miss Susan Bratton, Mr. and Mrs. Byron Orr, Mr. and Mrs. A. Orr, Mr. and Mrs. Samuel Gutridge of Linville, Mr. and Mrs. Van Garrison of Brownsville, Mr. and Mrs. Henry Orr, Mr. and Mrs. Frank Claggett of Gratiot, Miss Goldie Hupp, Mr. and Mrs. Ed Gutridge, Mr. and Mrs. A. Benman, Mr. and Mrs. Virgil Cooperider, Mr. and Mrs. Clark Cooperider, Mrs. Mary McCracken, Mr. and Mrs. Jacob Mack, Mr. and Mrs. Herman Hupp of Thornville, Mr. and Mrs. J. E. Powers of Granville, Mr. Earl Curry, Mr. Lloyd Curry, Miss Edna Guest, Miss Iva Curry, Mrs. Maud Curry of Glenford, Mr. and Mrs. Ralph Grubaugh, Mrs. Nellie Penkan, and little daughter, Mr. and Mrs. Leslie Gutridge of Toboso, Mr. and Mrs. M. D. Snyder, Mrs. Emma Powers of Johnston, Mr. and Mrs. Raymond Woolard, and little son of Clay Lick, Mr. and Mrs. Ben Gutridge, Mr. and Mrs. Albert Gutridge, Mr. and Mrs. Bert Gutridge and daughter Margaret.

SOUTH AMERICAN. GIRL POPULAR IN DIPLOMATIC SET

Miss Elena de Gana.

Miss Elena de Gana is to be one of the debutantes of the coming season in Washington. Miss de Gana, who is the daughter of Madam Domingo de Gana and the niece of Madam Mathieu, wife of the Chilean ambassador, is one of the most popular young women in the diplomatic circles at the capital.

Mr. and Mrs. A. A. Lake, Mrs. Mary Ellsworth Fuller, Mr. and Mrs. A. W. Claggett of Newark.

Gilbert Gorman.

At 9 o'clock at St. Francis de Sales church, the nuptial mass solemnizing the marriage of Miss Nellie Gorman and Mr. John Bruce Gilbert, was celebrated by the pastor, Rev. Father B. M. O'Boylan.

The high altar was banked with ferns and golden rods, and the priedieux were arranged in a half circle and festooned with fern leaves. The bride wore a suit of sand brown tulle with sea trimmings and the bouquet was of sunburst roses. She was attended by Miss Anna Stankard of Taylor, who wore a suit of dark brown, and carried pink roses.

Mr. Gilbert was attended by his brother Charles Gilbert as best man.

Following the ceremony a wedding breakfast was served at the home of the bride's mother, Mrs. Anna Gorman in East Locust street.

The bride was graduated from St. Francis de Sales High school and has been a stenographer in the office of Martin & Martin. Mr. Gilbert is the son of Mr. and Mrs. Edward Gilbert in Central avenue and is employed in a clerical capacity by the B. & O. railroad company. He was in the aviation service, with the rank of sergeant and was stationed in Texas.

Mr. and Mrs. Gilbert will be at home in 130 East Locust street.

PERSONAL

Andrew Pieffer left last week for Denver where he will spend the winter for the benefit of his health.

J. M. Mitchell, clothier, is in Chicago. Miss Miriam R. Fitzpatrick has returned home after spending two weeks with Miss Frances Walsh of Mattoon.

Miss Fitzpatrick and Miss Walsh were schoolmates at St. Mary's of the Springs, Columbus, O.

Mrs. Ralph Bradley of Cincinnati, formerly Miss Edith Nutter, is the guest of her parents, Mr. and Mrs. Charles Nutter of Harrison street.

Miss Emily Alexander will go to Cincinnati tomorrow to be the guest of Mrs. Margaret Wratten and to attend the opening games of the world's series.

Word was received here that Miss Agnes Sebring who has been visiting friends and relatives in Columbus the past two weeks had taken suddenly ill and was removed to a hospital, where she will undergo an operation on Wednesday.

Mr. and Mrs. James Cochran of Church street will leave Wednesday for a short visit with Mr. Cochran's people in the East.

Mrs. H. L. Heiskell of Washington, D. C., is spending the month of October with her aunt, Mrs. Hugh B. Fwing of Granville street.

OBITUARY

Mrs. Eva Southwick.
Short funeral services for Mrs. Eva Southwick were held Monday afternoon at 4 o'clock at the Bazler undertaking parlors. The body was then taken to Milan, Mich., where interment was made.

Mrs. Bertha Friel Scott.
Mrs. Bertha Friel Scott, 28, died at the City Hospital, Tuesday morning at 4 o'clock, following an operation for appendicitis. Mrs. Scott has been ailing for the past three weeks.

She was born in Celina in 1891 and came to Newark shortly afterwards with her parents. She has made Newark her home until four years ago when she went to Cleveland. Surviving are her husband, C. H. Scott, traveling representative of an electrical company, her parents, Mr. and Mrs. Charles T. Friel of 442 North Fourth street.

Arrangements for the funeral will be announced later.

THE COURTS

Iva E. Kiefer has filed a petition in common pleas court against Charles L. Kiefer. They were married March 2, 1903, at Mayville, N. Y., and are the parents of one child, aged 11 years. The petition alleges extreme cruelty in that the defendant was cross and abusive and called plaintiff vile and indecent names and falsely accused her of infidelity. He is also charged with failure to provide. Plaintiff asks for divorce and other relief.

Says Husband Is Abusive.

Margaret Faulhaber has filed a petition in probate court against Henry F. Faulhaber. They were married at Zanesville, May 4, 1913. Plaintiff alleges extreme cruelty stating in the petition that the defendant has been cruel and abusive most of their married life, and that he has frequently called her vile names and threatened to do her bodily harm. On September 26 of the present month the defendant abused, assaulted and choked her and ordered her from their home. She asks for reasonable permanent alimony and that she be granted a divorce and all relief to which she may be entitled.

Answer Filed.

In the case of Josephine Goodin vs. Marlin H. Goodin, the defendant has filed his answer in common pleas court in which he admits their marriage as alleged in the plaintiff's petition but denies each and every other allegation.

WOMAN CHARGES TWO WITH ASSAULT

Hamilton, Sept. 30.—Mrs. Mary Worley, who the police of Middletown say has been separated from her husband, and Esby Collins were held up by four men at Fifth street and an alley in Middletown last night, according to the woman's story and while one man cowed her escort with a revolver, the other three took her up the alley and assaulted her.

Collins escaped from his captor, and ran to the police station. The police quickly made for the alley and caught a man who gave his name as William Johnson, who was held on suspicion. Later a man who gave his name as Robert Boyer was held under suspicion.

PHONE RATE APPROVED.

Columbus, Sept. 30.—The state public utilities commission today approved the new schedule of telephone rates of the Ohio State Telephone company for Dayton and vicinity. The new schedule is said to call for approximately a 10 per cent increase. The commission's order is applicable to all telephone companies operating in the state which were under government control.

Columbus—Senator H. J. Ritter, Miami county, likely succeed late Senator Davis as chairman senate finance committee.

Happy Mothers

Many mothers who in order to keep the home neat and attractive, the children well fed and dressed, continually overdo.

The experience of motherhood alone causes a severe strain upon the system, from which many women recover slowly, and serious feminine disorders may develop unless great care is taken to prevent them.

To such women Lydia E. Pinkham's Vegetable Compound is invaluable. For many years this root and herb medicine has been recognized as the standard remedy for woman's ills, restoring them to a normal, healthy condition.

Mrs. Morgan's Case

East Hampton, N. Y. — "For two years I suffered with a female weakness, pains in my back and painful periods, and I was so weak and tired that I was not able to do my work. A friend told me to use Lydia E. Pinkham's Vegetable Compound and it gave me great relief. My pains left me and I am now able to do my work and feel fine. You can publish my testimonial and if your Vegetable Compound does others as much good as it has me I will be very much pleased."—Mrs. CHARLES E. MORGAN, Care of E. L. Dennett.

A Word to Childless Women

There are women everywhere who long for children in their homes yet are denied this happiness on account of some functional disorder which in many cases would readily yield to Lydia E. Pinkham's Vegetable Compound.

Such women should not give up hope until they have given this wonderful medicine a trial.

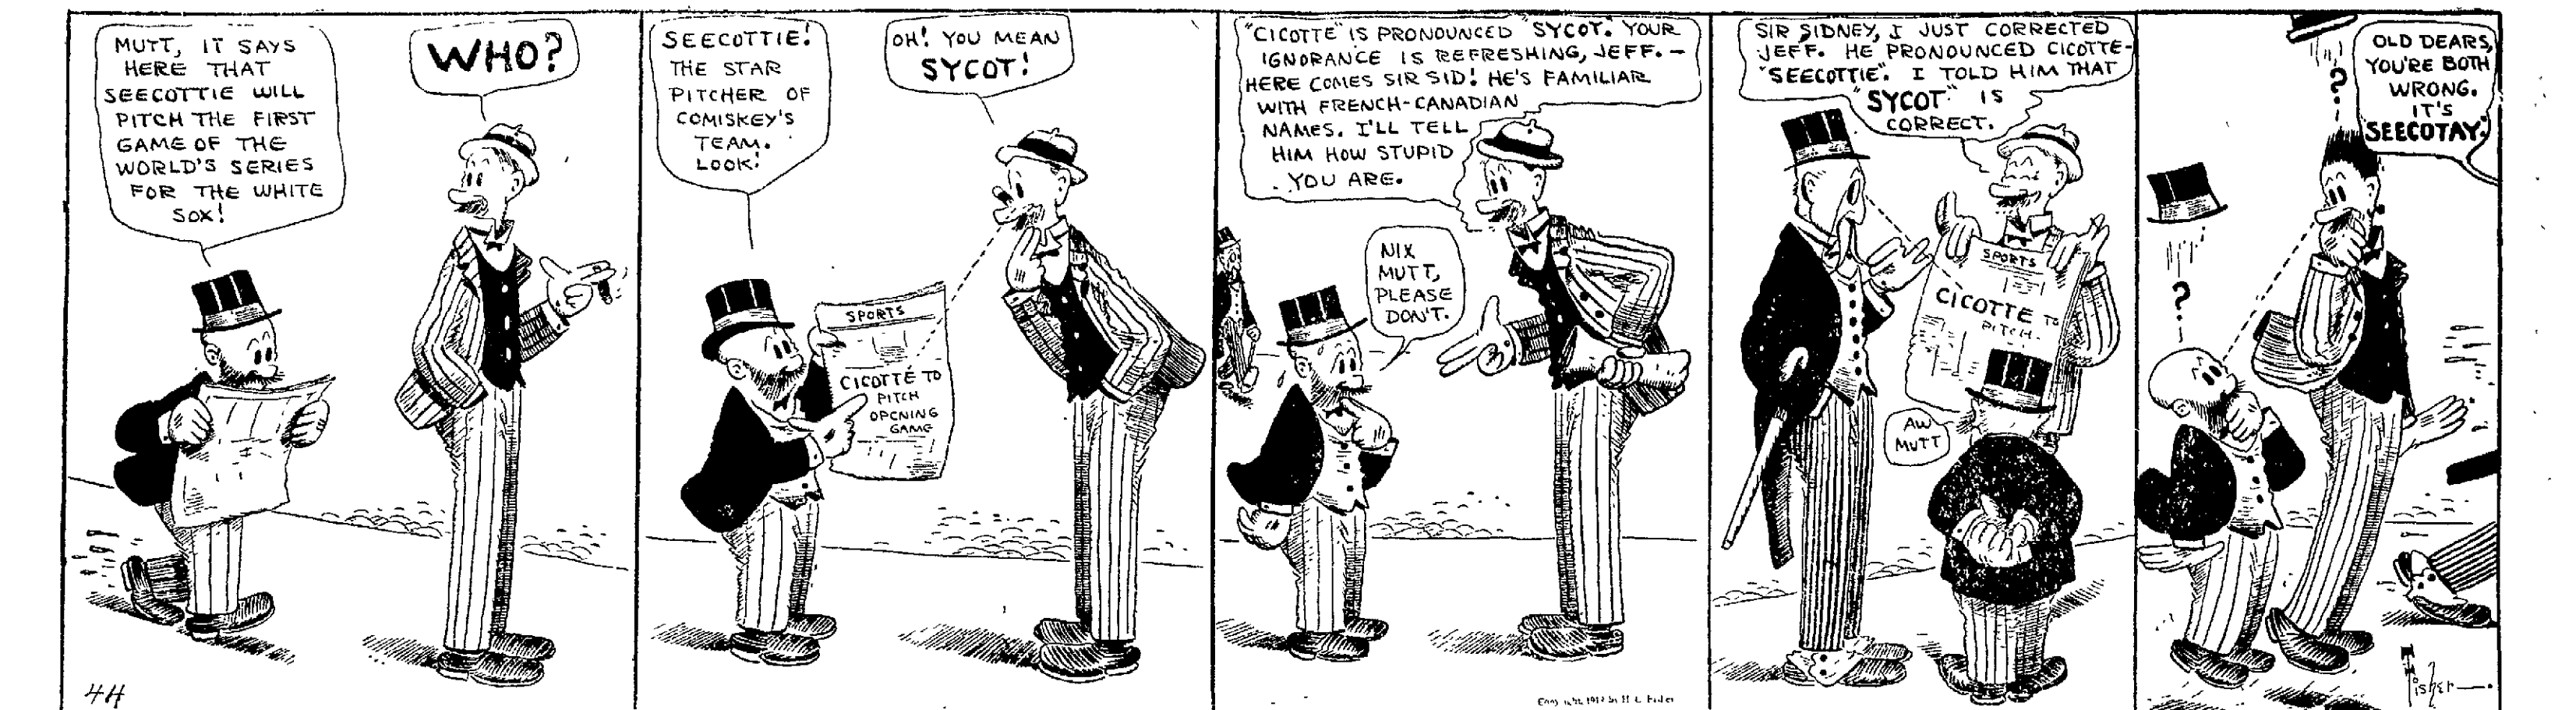

Lydia E. Pinkham's Vegetable Compound

Chicago Grain Review.
Chicago, Sept. 30.—Wheat weakness in the corn market resulted today from declines in foreign exchange rates and from a sharp break in quotations on hogs. Opening prices, which varied from unchanged figures to 5-8c, lower with Dec 81 1/4 to 1 1/2 and May 11.22 to 1 1/2 1/2, were followed by additional setbacks in December and May deliveries but then by something of an upturn all around.
Oats sympathized with the weakness of corn. After opening on-half cent lower to a shade advance, including December at 69 3/4 to 70c the market underwent a moderate rise.
Provisions were depressed by the bearish action of the grain and hog markets. On the decline more power a recovery was shown by hogs than by pork or ribs.

Pittsburgh Live Stock.
Pittsburgh, Sept. 30.—Hogs receipts 17,000; lower, heavy 17.00@17.25; heavy Yorkers 17.00@17.25; light Yorkers 17.00@17.25; pigs 16.25@16.50.
Sheep and lambs receipts 2,500; steady, top sheep 10.50, top lambs 11.50.
Calves, receipts 100; steady; top 22.50.

Cincinnati Live Stock.
Cincinnati, Sept. 30.—Hogs receipts 2,500; steady to 2 1/2c higher. Selected heavy shippers, 17.25@17.50; good to choice packers and butchers, 17.50; medium, 16.00@17.50.
Cattle: receipts 1,000, quiet and steady. Shippers, 11.00@12.00; butchers, 11.00@12.00; good to choice, 10.50@11.50; common to fair, 8.00@10.00.
Calves: strong. Extra, 21.00@21.50; fair to good, 21.00@21.50; common and large, 17.00@18.00.
Sheep, receipts 700; steady. Good to choice, 16.25@16.50; fair to good 14.00@16.25; common, 11.00@14.00; lambs, steady, good to choice, 14.00@14.25; fair to good, 12.00@14.00; common to fair, 10.00@12.00.

Wall Street.
New York, Sept. 30.—Firmness which soon developed into pronounced strength attended the early dealings on the stock exchange today despite yesterday's flurry in the money market. The steel group was hesitant at the outset but soon hardened under the influence of another spectacular movement in Crucible steel which rose at most 14 points to the new maximum of 244. Oils, motors, equipments, to baccos and food shares registered gains of 1 to 3 points. American Can, Baldwins Locomotive and Central Leather represented the strongest issues in their respective groups. Initial gains were extended before the end of the first half hour.
The market became unsettled after the first buying movement. Crucible Steel reacting 5 points and other active issues 1 to 3. The setback was attributed to uncertainty regarding monetary conditions which pointed to high

Church to Meet Spirit of the New Age.

By WILLIAM ROSTER.

IS the Christianity of today the same as that of a century ago? Fundamentally, yes, in its expression and application, no.

In what condition has religion emerged from the melting pot of the world war? Is there a meeting point between the Church and the militant civilization of the twentieth century? Has the Church kept abreast of the times?

In these post war days of unrest and uncertainty, when society is not quite sure which road to travel, has the Church assumed the leadership it is granted it should take? Is the Church appreciative of the responsibilities and obligations of the hour? These and questions of like import rise to the lips of every thoughtful man who views the successive religious movements which have been inaugurated recently, and which are evinced by the Episcopal National-Wide Campaign, of which the Every Name Campaign in the Diocese of New York is its Metropolitan handmaiden. The fullness of time only can give the definite answers. Meanwhile, an array of significant facts is piling up for the consideration of the close observer of the times.

Unquestionably, all of these movements are the outgrowth of efforts on the part of the churches to meet the changed conditions which have resulted from the war. It is agreed that we have entered upon a new era in the world's history—with new duties, new responsibilities, a revised view-point and a clearer idea than even before of man's dependence upon his fellow-man without regard to religion or race, color or class distinction.

Religion Must Be Practical.

"In the new era which is upon us," writes George Gordon Battle, a New York lawyer who has entered with fervor into the Every Name Campaign, "religion, to be effective, will have to share itself to meet the wants of mankind as a whole. It must recognize human conditions, needs, aspirations, weakness. It must be practical. It must be efficient. It must cease to be a mere mental with metaphysical doctrines, creeds, theories and dogmas, and get down to common level."

In what spirit the Episcopal Church has launched its National-Wide Campaign of which this is a lay interpretation, a general idea is obtained from the official statement that it is "A campaign inaugurated by the Board of Missions at its meeting in December, 1918, and finally approved by the Executive Committee in April, 1919, to bring the compelling facts of the Church's whole responsibility at home and abroad to the attention of every member of the Church. In pursuit of this plan, every agency of the Church, for the first time in its history, is united in a fixed, definite purpose—the Board of Missions, the General Board of Religious Education, the Joint Commission on Social Service, the Woman's Auxiliary, the American Church Institute for Negroes, the Girls' Friendly Society, the

Order of the Holy Cross, the Brotherhood of St. Andrew, and the Church Periodical Club. A nation-wide campaign of education is to be conducted in which is involved a personal call upon every member of the Church throughout the United States, in the effort to "inform the mind and awaken the conscience" of the church-goer as to the duties and responsibilities of members of the Episcopal Faith in the new era.

And what is of peculiar interest and importance, there will be taken simultaneously a survey of the resources of the Church and its institutions in every part of the world, their wants and their needs to the end that when the Triennial General Convention of the Church meets at Detroit in October there will be before the clerical and lay delegates a comprehensive picture of the entire church establishment.

Statesmanship Needed.

With this in hand, it is then planned to map out a program of Church activity for the ensuing three years which shall meet the spirit of the new age and comport with the standing of the Episcopal Church as a National institution. Finally, a budget system will be submitted, and with the Reconstruction program in hand, and a practical, business-like method of putting it into execution formulated, the reawakened, united and solidified Church will go before the nation for co-operation and support in its drive for national service.

It is a movement that calls for statesmanship of the highest order. Within the corporate body of the Episcopal Church are all of the conflicting elements which represent the seething life of America today. Governed by a body of laws closely conforming to the Constitution of the United States, the utmost liberty of thought and speech are permitted consonant with adherence to the fundamental religious doctrines of the Church; and a mass of conflicting views will have to be reconciled in shaping a general program for action upon which the Triennial Convention can agree to go before the country.

It is clearly evident that the convention will be asked to take cognizance of the relations between capital and labor, and if the Peace Treaty has not been adopted before the convention assembles it will undoubtedly be called upon to define an attitude toward the League of Nations.

The Saloon Substitute.

All the complex social problems growing out of the war will demand attention; and it is equally certain, since one of the Episcopal Church's great and successful activities is in connection with the education of the negro race, that the negro problem will press for discussion, as will the questions of the rural church, of substitutes for the saloon and of the congested population in the big cities.

The first stage of the campaign is now under way, under the direction of a National Organization, the Honorary Chairman of which is the Rt.

Rev. R. Blond Mitchell

Samuel Mather

Rev. Robert W. Patton, D.D.

Bishop Charles Sumner Burch

George Zabriskie

Rev. Daniel S. Tuttle of St. Louis, Presiding Bishop of the Church, and behind whom is an efficient Executive Campaign Committee composed of the Rt. Rev. Arthur S. Lloyd, D. D., Chairman; the Rev. Dr. Robert W. Patton, National Director; the Rev. L. G. Wood, Vice Director; the Rev. R. Bland Mitchell, Manager Central Office; Miss Grace Lindley, the Rev. Dr. William E. Gardner, and the Rev. Augustine Elmendorf. Back of this committee are committees representing every diocese and missionary district in the nation, and still behind them parish committees representing every parish organization. The educational campaign and the survey are proceeding along side by side with precision and a care and attention to detail that is not exceeded by that which is put into the conduct of a great national political campaign, and it may be added, with scarcely less enthusiasm.

Church Suffrage.

How is the Church reacting to this drive? One of the most interesting reflexes is the tremendous interest which the laymen of the Church have taken in the movement. In this detail, the diocese of New York, with its Every Name Campaign, has set the pace for the rest of the nation, and there one of the first fruits of the reawakening is a movement which has been inaugurated with great promise of success to admit women to active participation in church affairs, even to the extent of making them members of church vestries and delegates to the diocesan and general conventions.

Along the same lines, the activities of the laymen have met with such encouragement from the clergy as to lend color to the belief that in the future former restrictions are to

Rt. Rev. Arthur S. Lloyd, D.D.

Rt. Rev. Daniel S. Tuttle, D.D.

be lifted and the laity are to enjoy participation in the spiritual work of the church which hitherto has been denied them.

Aside from this, the noteworthy and significant fact which the National-Wide Campaign has developed is a progressive spirit on the part of all classes of the Church, but especially in the hitherto conservative element which is taking the form of an insistence that the Church can not avoid playing a prominent part in coping with the conditions of eco-

nomic unrest and disquiet under which the nation is laboring, and that any reconstruction program adopted by the general convention must include consideration of the problem of capital and labor.

Efficient Religion.

In New York, for illustration, William F. Morgan, President of the Merchants' Association, and Chairman of the Every Name Campaign Committee, declaring for "practical, efficient religion," laid it down as a recognized fact, in an in-

terview instituting the religious movement "which he heads, that workingmen and women alike are entitled to safe and healthful surroundings in their employment, to fair working hours and a wage justly proportioned to the profits derived from their labor, adequate recreation, proper housing and stimulating uplifting amusements," and until these conditions are met, he declared it is hardly worth while looking for a great spiritual reawakening among the workers. The efficient religion, he said, is one which ministers to man's material as well as his spiritual needs.

Former Attorney General Wickersham, of Mr. Taft's Cabinet made a like declaration in support of the Every Name Campaign, and William C. Bred, another well known lawyer, asserted that "the developing tendency of business and professional men to regard religion as an essential feature of every day life not at all incompatible with work-a-day affairs, is one of the reflexes of the world war to which the Church as an organized institution for human betterment does well to give serious attention." He, too, declared for a practical church in which the new spirit of democracy predominated.

Church Leaders' Views.

The Bishop Suffragan of New

York, Charles Sumner Burch, in speeding the campaign on its way, declares that "in common with other communions the Episcopal Church feels the urge of the spirit of the time which compels their active participation in the solution of problems growing out of the world war."

Bishop Brent, of Buffalo, who was the senior Chaplain of the American Expeditionary Force in France, sounds this warning, in urging forward the campaign: "The Church is expecting an era of liberty, justice, honor and freedom, for the war was fought, will be applied to every department and phase of life and made available for the least man not less than the least nation. If immediate steps are not taken to this end, the disorder which will ensue will be justifiable disorder."

Bishop Williams, of Detroit, declares for the democratization of industry in America, in urging forward the National-Wide Campaign of his Church. George B. Elliott, Vice President of the Atlantic Coast Line Railroad, declaring that our civilization has failed, adds, "We must awaken the Church by this campaign. The opportunity and the responsibility are hers."

Bishop Burleson, of South Dakota, declares that the "Church faces at this moment her greatest opportunity." The Rev. Dr. Edward L. Parsons, of Berkeley, Cal., says: "Great tasks call for great efforts. Never has Christianity had a greater task than today." The Rev. Dr. Arthur L. Kinsolving, of Baltimore, adds: "The Church today faces in the new age greater duties than ever."

From practically every diocese throughout the nation come similar expressions of the supreme duty of the Church in the new age which has dawned. It is the declared purpose of the National-Wide and the Every Name Campaigns to meet these issues and answer the questions which they evoke, answers which bear so heavily upon the future of the nation.

Cheap, quick way to stop rheumatism

One Day's Test Proves NR Best

Are you willing to be convinced that sore, stiff, aching joints or muscles can be relieved and rheumatism greatly benefited if not entirely conquered, for the insignificant sum of 25c?

Sound too good to be true, doesn't it? Yet thousands of people who had rheumatism have found that it can be done, and are doing it today.

You've tried the high priced and expensive things, found that they failed—you still have your trouble, why not try this simple, economical, yet sensible plan, and let results speak for themselves?

Just get a 25c box of Nature's Remedy (NR Tablets) and begin taking it right. It acts on the digestive and eliminative organs, improving digestion and assimilation and cleansing the body of accumulated waste, impurities and poisons. With good digestion and assimilation, the body is nourished and vitality and natural

Try toning your digestive and eliminative organs with NR. Free your body from poisonous waste and relief is quick.

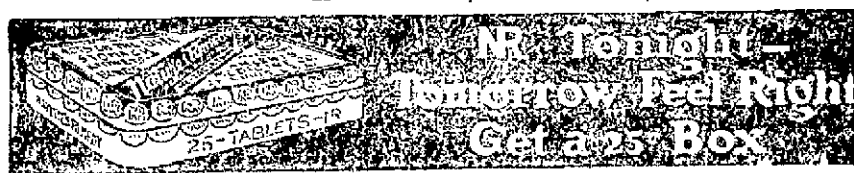

power of resistance against disease greatly increased. With the kidneys and bowels acting vigorously and regularly and the body freed from irritating poisons, relief must come.

Nature's Remedy (NR Tablets) though mild and gentle in action, does its work thoroughly and quickly. There is nothing harmful in it, it does not irritate the stomach, and no gripping, pain or any discomfort. The only result is pleasant, glorious, welcome relief and benefit.

Try it—you take no risk in doing so for Nature's Remedy costs only 25c (enough to last twenty-five days), and is sold with the distinct understanding that it must relieve and benefit or money back.

More than one million people in this country are using Nature's Remedy today. Five million boxes are used every year. What better proof of its great merit could be offered? It is sold, guaranteed and recommended by your druggist?

W. A. ERMAN, DRUGGIST

To achieve substantial success, we try to handle only that which has a selling value of genuine merit. We know that the motor cars we sell are The leaders in their class.

LETTER SENT TO WRONG MAN

One of Least Familiar of Gladstone Stories Is Recalled by Death of Irish Lord.

The death of Lord Clonbrock recalls one of the best and perhaps one of the least familiar of Gladstone stories, says the New York Herald. The late peer was a remarkably venerable person and much more sympathetic to the tenants' cause than most Irish Tories. When the agrarian question was at its fiercest, he made a pacific and moderate speech in Ireland partly approving Gladstone's land bill. Gladstone saw the speech and, always eager to gain a recruit, wrote a civil letter, beginning "My Dear Lord," expressing his gratification at this unlooked-for support and begging his correspondent to waive the ceremony of an introduction and to dine with him in Downing street to discuss some knotty point in the bill.

He handed the letter, as was his custom, to a private secretary to direct and post. The private secretary misdirected it to Lord Clon—, an absentee landlord and an Irish Tory of the hottest type, who was sober only at unprecedented intervals.

The peer came to dine in due course. As soon as the women had left the table the G. O. M. drew up his chair and opened the subject in the most earnest tones.

"I was glad to see that your lordship took a more sympathetic view of the subject than the bulk of your order. You have unequaled knowledge of the Irish tenant farmers. Would you favor me with your opinion of them and of the condition of Ireland generally?"

"Condition of Ireland?" stuttered the wine-charged visitor, "awful. Tenant farmers? The dirtiest set of rascals that ever cumbered God's earth."

Only one observation was open to the discomfited host: "Let us join the ladies."

LEGAL NOTICE.
Florence Cale

Hobson Cale, Defendant whose place of residence is on Avery Street in Parkersburg, West Virginia, will take notice that on the 8th day of September, 1919, plaintiff filed her petition in the Probate Court of Licking County, Ohio, praying for a divorce. That said cause will be for hearing after six weeks from September 9, 1919.

FLORENCE CALE,
By Phil E. Smythe, her Atty.

COLUMBUS MAN IS ENTHUSIASTIC OVER NEW REMEDY

Declares It Has Overcome Stomach Trouble, Gastritis, Constipation, Bileache and Lazy Liver.

DRECO, BEST OF ALL.

"I don't hesitate to state to my friends and the public that Drego is the best medicine I ever took for troubles that have had me in their grasp a long time," says Mr. Ernest McElwee, of 217 Hawks Ave., Columbus, O., who is assistant shipping clerk for the Gilch and Cress wholesale grocery company.

"My stomach felt like it had a load of brick in it, even though I had eaten a light meal. For a long time I have suffered from constipation, biliousness, and stomach disorders, which brought on other troubles. My stomach got all out of condition, and my food disagreed with me, no matter what I ate, or how careful I was about selecting it. I would get nauseated and have pains in the pit of my stomach. It seemed like I was choking, yet I could not swallow it down, nor spit it out. My sleep became broken and it did not refresh me. I got very nervous, had a bad taste in my mouth, and was very bilious. It seemed like no medicine helped me, so when the new medicine, Drego, came along, and I learned it was made from roots and herbs, I bought a bottle, and right there my troubles came to a standstill. I believe the very first dose did me good; my troubles are all very much better now. The constipation is fully relieved; my food digests well, and I sleep fine every night. I am going to take several bottles before I quit, for Drego is the best medicine I ever saw."

People get the habit of doctoring a pain or symptom while they let the real trouble which causes it alone. That is why Drego is so successful. It strikes at the root of the trouble and knocks it out of the system entirely.

Drego acts on the bowels, relieving constipation, rouses a lazy liver to full action; strengthens the kidneys and helps them strain the poisons from the blood, thereby relieving rheumatism, catarrh, eczema, boils and scallous skin. All good druggists now sell Drego, and it is highly recommended in New York by Evans' Cut Rate drug store.—Adv.

NOTICE OF ELECTION.

Notice is hereby given under Section 6026-2 of the General Code of Ohio by the County Commissioners of Licking County, Ohio, that on Tuesday, the 4th day of November, A. D. 1919, at the polls at all precincts of said county there will be submitted to the electors of said county the question of exempting from all tax limitations the levy of two mills provided by Section 6026 of the General Code for the purpose of paying such county's proportion of the compensation, damages, costs and expenses of constructing, reconstructing, maintaining and repairing county roads, such exemptions to continue for the term of ten years.

Witness our hands this 24th day of September, 1919.

C. D. LAKE,
J. E. McCRACKEN,
J. C. BOTT,

County Commissioners of Licking County, Ohio.

HEARD THE YANKS WHISTLE

In Verdun on Armistice Night It Was the Only Sign of Peace Correspondent Found.

We rolled into Verdun long after dark, on the day of the armistice, and found no celebration there, Williams Slaven McNutt writes in Collier's Weekly. There were no shells falling in the town, but otherwise the martyred city was as we had known it during the war. No lights showed. The narrow streets were filled with the rustling sound of many soldiers passing in the dark, talking in low tones.

And yet there was something strange about Verdun, something different, some change that forced itself upon my attention, and yet one which I could not determine. An American soldier stopped near the car to light a cigarette. He had been whistling "Annie Laurie," and after a long while went on whistling. And then I knew what made me feel different in Verdun that night.

Everywhere, all over the city, Americans were whistling! They were whistling casually, unconsciously, one this time and one that. But they were whistling! One could pick out the Americans in the dark all over the city, because where there was an American one heard the shrilling of some old American tune or newer rag. The French don't whistle casually on the street at any time, and never before had the American generally practiced his habit in Verdun. And that night going about their various tasks in the dark old city, the Americans were whistling.

Hearing that cheery, familiar sound, my mind for the first time really took hold on the end of the great war as an understandable fact.

The Other Man.

An old Irish conchman had just finished a wet and cold drive. "Now, Pat," said the young lady he had driven, "drink this glass of toddy, and you'll feel like another man." Later on, when preparing to start on the return journey, Pat said, "Sure, and the other man would like a drop of something hot!"

Aptitude for Details.

"You know Johnson—great fellow for detail." "He is that! He's the sort of chap who would go and get married and be able afterward to tell you whether it was Mendelssohn, Lohengrin, or Tannhauser they played during the ceremony!"

Jade Imitations.

Chinese jade is so successfully imitated by manufacturers in Europe that the artificial frequently is mistaken by experts for the genuine.

Our 9th Annual Visit to Newark

W. S. FULKMAN
THE WELL KNOWN
COLUMBUS TREE DOCTOR
NOW OPERATING IN
NEWARK

DURING the nine successive years that we have operated in this city we have won the confidence of tree owners in Newark by our scientific treatment of their trees, our modern methods, and careful personal attention to each order.

We are here again, and if you like that kind of work, we will be pleased to do business with old and new customers.

Every order will have the personal attention of Mr. Fulkman, who is devoting his life to saving trees.

For Appointment, Call Auto. Phone 1562.

We are better prepared to serve you than ever, with skillful men, larger experience, and all necessary equipment.

Our method of trimming trees meets with universal approval wherever we operate.

ENDORSEMENT

Your work is perfectly satisfactory. —W. G. Hubbard, Chairman, W. V. Mr. Fulkman is well known as one of the most thorough men in his line of work being regarded as an authority on the modern treatment of trees. —Belmont (Ohio) Daily Examiner. The tree experts completed their work on the trees at the high school grounds this morning; the appearance of the grove has been greatly improved. —Piquette (Ohio) Leader-Dispatch. I wish to express my appreciation, as well as that of the whole city, for the work done on the trees in our Court House park. —W. C. Wells, Secretary Board of Trade, Newark, Ohio. The work done by you in putting in proper condition five elm trees in front of our postoffice building is greatly satisfactory; payment will be made from Treasury Department at Washington. —R. D. Douglas, Cincinnati Federal Building, Cincinnati, N. C.

Mr. Fulkman is the expert of more than ordinary ability; he has been before, and his work of former years has stood the test of time. —Columbian (Ohio) Morning Tribune. We are pleased both with your work and your moderate charges. —Chas. G. King, president Board of Education, Massillon, Ohio.

Mr. Fulkman, a noted tree expert with assistants is engaged in treating the fine shade trees in Riverdale cemetery, where members of many prominent families now lie at rest. —Parker (W. Va.) Sentinel. The beautiful grove of trees at the high school grounds are now in the hands of specialists, and are being treated in a scientific manner. —Union (Ohio) Inquirer.

I believe Mr. Fulkman to be honest and conscientious in his business, and in every way worthy of confidence. —H. E. Greer, president First National Bank, Mt. Vernon, Ohio.

The skillful and scientific manner in which my pecan tree was cared for meets my entire approval. —Miss Wm. Lindsay, widow of late U. S. Senator, Frankfort, Ky.

They use modern scientific methods in their treatment of trees. —Zanesville (O.) News.

From what I can judge of the work done on my five old trees, they have been put in good condition. —T. T. Grell, Montgomery, Ala.

Mr. Fulkman carefully trimmed and treated several large oaks for me, doing what I believe is permanent work that will prolong their lives. —A. M. Nelson, Roanoke, Va.

We are pleased with the result of your treating and trimming the trees on our Court House grounds. —Board of Commissioners, Lancaster, Ohio.

AMUSEMENTS

AUDITORIUM

A Temperamental Wife.

Prospective brides may find valuable hints for happiness in "A Temperamental Wife," starring Constance Talmadge, which is seen tonight at the Auditorium theatre last times.

Taking the part of Bibbe Balthus, pretty, wealthy and afflicted with an unreasonable jealous nature, Constance Talmadge has a novel assortment of experiences both before and after her marriage to the prim Senator Newton from Nevada. Rather sickly before marriage, by the time the solon has experienced some of his jealous wife's eccentricities he is in a most vigorous physical shape and able to whip his weight in wildcats and Hungarian Counts who should know better.

"Sleeping Partners."

Coming to the Auditorium Wednesday evening Oct. 1, will appear Edna Goodrich in a new comedy adapted from the French of Sacca Guitry by Seymour Hicks. "Sleeping Partners," best described as a farce of the Parisian Boulevard. As "Faisons un Reve" it enjoyed a long run in Paris while in its present form it ran for over a year in London and also enjoyed a run of over nine months at the Biju theatre, New York.

Miss Goodrich will be seen as the

changes of emotions evoked by the characterization, in a thoroughly delightful way. It is doubtful if a more suitable first story for Miss Lee could have been found than this charming screen version of Tom Gallion's famous novel.

"The Cruise of the Make-Believes" is just the sort of story that is needed nowadays. It is clean, spirited and humorous, and it kept the audiences at the Alhambra theatre in good humor throughout each showing. There is no doubt from the applause and expression of approval heard, that the film fans like Lila Lee and her delightful acting, so expressive of sparkling youth. She has been given the best support that Paramount had at its disposal and the result is a beautifully rounded performance. It is seen tonight last times.

"The Splendid Sin."

Madeline Travers, who is noted for her "tetching" frocks both on and off the screen, dresses to perfection the part of Lady Maudon Chatham, an English society woman, in her latest photoplay, "The Splendid Sin," a William Fox production in which she will be seen tomorrow and Thursday at the Alhambra theatre.

Miss Travers is possessed of consummate taste in dress, as well as that

Eddie Vogt in "The Bride Shop" Auditorium Sat., Mat. and Night, Oct. 4th.

charming and willful French wife and never in her career has she had such an opportunity to display the supreme taste in gowns as in this play. No other actress on our stage can so nearly approach the wealthy Parisienne in jewels, gowns and furs. Sees now on sale.

"The Mating of Marcella."

In "The Mating of Marcella," which will be shown at the Auditorium theatre next Thursday, Dorothy Dalton has the role of a modest model, who lives in straitened circumstances and who, to save the life of her father, innocently lends herself to the scheme of a society woman, to obtain a divorce.

"The Bride Shop."

Local audiences have had so long thrust upon them cheap sentimentalism that it is surprising to stand for pathos, vulgarity, posing as wit, rough house action for humor and mere blare and noises for music that a clear, clever musical show that has scored a position and never met with an adverse criticism ought to prove highly entertaining. This show is "The Bride Shop" and is scheduled for appearance at the Auditorium theatre on Saturday. George Choo, who is the producer of this musical show, has made a record in its dramatic mounting and scenic invention. But best of all he has selected a cast that leaves nothing to be desired in the matter of excellence. The company numbers 30 and numbers such artists as Eddie Vogt, Joan Sully, Jack Chure, the C. M. Bell, Nan Hopewell and Edith Denjar. Trances, Alston and Muriel Thomas. The handsome show girls, all of them specially picked, with their costume and ingenu display form a feature that has been much commented upon as to its accompaniment of the music, melodious and catchy songs.

GRAND

Harold Lockwood.

This afternoon, and evening and tomorrow, the Grand Theatre will present at the Grand Theatre, one of the most fascinating Harold Lockwood pictures, "The Great Romance." The picture has been a wonderment of movie lovers for several months, and since it was first produced and it becomes even more fascinating every time it has been seen. There is so much that can't be told about its beauty and impressiveness, that it is not possible to describe it. It is a picture that will show a young man to win the girl of his choice. Besides this picture there will be shown that master comedy mind Miss Gale Henry in "Her First Flame."

Bessie Barriscale.

On Thursday and Friday of this week Bessie Barriscale, comes to the Grand in "Tangled Threads." It is the story of a man who deserts his wife and family to the lure of a wine loving, wild woman, whose whole soul is wrapped up in a life of gluttony.

ALHAMBRA

"The Cruise of the Make-Believes."

The face of Lila Lee is a new and charming addition to the films. In her work in "The Cruise of the Make-Believes," her first Paramount picture, which was presented at the Alhambra theatre yesterday, is fair evidence of the sort of acting she is to give us in later screen plays. It is safe to assume that she will soon find her way to the hearts of thousands of admirers, and will be shown as one of the prettiest and most popular little actresses in animated pictures.

"The Cruise of the Make-Believes" is a charming and funny story that holds the interest of the spectator throughout, and little Miss Lee's beautiful and mobile face expresses the

Lift off Corns!

Doesn't hurt a bit and Freezone costs only a few cents.

With your fingers! You can lift off any hard corn, soft corn, or corn between the toes, and the hard skin cut-luses from bottom of feet.

A tiny bottle of "Freezone" costs little at any drug store; apply a few drops upon the corn or callus. Instantly it stops hurting, then shortly you lift that bothersome corn or callus right off, root and all, without one bit of pain or soreness. Truly! No humbug!—Adv.

Houstonia Aids Nature's Oiling of Achey Joints

When joints twinge and throb and pain it's sure that nature has been unable to keep the body in proper trim. Then the thing to do is give nature a help—and yourself relief with a gentle massage of Houstonia. This soothing liniment penetrates to the very cause of the trouble and quickly ends your pain.

Your home should never be without Houstonia, the wonderful liniment—and antiseptic. On cuts, bruises, burns, scalds and all sore spots it helps nature quickly restore comfort. Ask your druggist for House-tone-e-ah (The Original Jones' Liniment) with Dr. Jones' picture on the yellow label, \$1.00. Half size 50c, trial size 25c. The Dr. J. C. Jones Co. So. Charleston, O.

VICTIMS RESCUED

Kidney, liver, bladder and uric acid troubles are most dangerous because of their insidious attacks. Heed the first warning they give that they need attention by taking

GOLD MEDAL

HAARLEM OIL

The world's standard remedy for these disorders, will often ward off these diseases and strengthen the body against further attacks. Three sizes, all druggists. Look for the name Gold Medal on every box and accept no imitation.

Callus? "Gets-It" Will Peel It Off!

Nothing on Earth Like Simple "Gets-It" for Corns or Calluses.

A callus, or thickened skin on the sole of the foot which often makes walking a misery is of the same nature as a corn. "Gets-It"

Use "Gets-It" and Dance. Even with Corns removes it as easily as it does the toughest corns. By using a few drops of "Gets-It" on the corn, you will be able to peel it off with your fingers, in one complete piece just as you would a banana peel. It leaves the skin free and smooth. As though you never had a callus. You need no more fussy plasters, sticky tape, "padding" bandages, knives or scissors for corns or calluses. "Gets-It" is the national corn remover, the biggest on earth, used by millions. It never fails. You'll work, play and dance at ease in spite of corns. "Gets-It" is the only sure, guaranteed, money-back corn-remover. Costs but a trifle at any drug store. Mfd. by E. Lawrence & Co., Chicago, Ill.

Sold in Newark and recommended as the world's best corn remedy by T. J. Evans, W. A. Erman and R. W. Smith.

AMBITION PILLS FOR NERVOUS PEOPLE

The great nerve tonic—the famous Wendell's Ambition Pills—that will put vigor, vim and vitality into nervous tired out, all in, despondent people in a few days in many instances.

Anyone can buy a box for only 50 cents, and T. J. Evans is authorized by the maker to refund the purchase price if anyone is dissatisfied with the first box purchased.

Thousands praise them for general debility, nervous prostration, mental depression and unstrung nerves caused by over-indulgence in alcohol, tobacco or overwork of any kind.

For any affliction of the nervous system, Wendell's Ambition Pills are unexcelled, while for hysteria, trembling and neuritis they are simply splendid. Fifty cents at T. J. Evans' and dealers everywhere.—Adv.

CAPT. HEISEY HEADS 17TH DISTRICT WHILE WRIGHT IS CHAIRMAN

Cleveland, Sept. 30.—The state of Ohio is being organized rapidly for the Roosevelt Memorial campaign which will open officially within the next three weeks. In twenty of the twenty-two districts of the state, chairmen have already been appointed. Captain A. H. Heisey of Newark is chairman of this Seventeenth district. County chairmen are: Coshocton, T. L. Montgomery; Coshocton, Licking, E. C. Wright; Newark; and Richland, T. E. Barnes; Mansfield. Chairmen have not been announced for Ashland, Delaware and Knox counties.

Party politics has not entered into any part of the organization work. "Regular" Republicans, 1912 Progressives, and Democrats are equally prominent. Governor James M. Cox is a member of the state committee, and ex-Governor Harmon of the National. Secretary of State Harvey C. Smith is also a member of the state executive committee.

ADVISES AGAINST SUGAR BOARD FOR NEXT YEAR

New York, Sept. 30.—President Wilson has been advised by the United States sugar equalization board, it was learned yesterday, that in its opinion it is too late to consider a continuation of government sugar control throughout next year. The board automatically goes out of office December 31.

Already 1,000,000 tons or one-quarter of the new crop of Cuban sugar, has been sold. It is said, mainly to foreign buyers, at a price averaging 6 1/2 cents a pound. Last year the equalization board purchased the entire Cuban crop of more than 3,500,000 tons at 6 1/2 cents.

American refiners, in view of the foreign demand and heavy domestic requirements, the equalization board stated, now are at liberty to enter the market for the new Cuban crop, the unsold portion of which exceeds 2,500,000 tons.

SHOPMEN'S UNION SIGN UNIFORM RULE AGREEMENT

Washington, Sept. 30.—The national agreement on working conditions for railway shopmen, establishing uniform rules for 600,000 men, as proposed in President Wilson's reply to the demand of the men for increased wages, will become effective October 20 and remain in force until the end of government control of the roads. It was learned yesterday that the agreement had been signed by the railroad administration and six international unions affiliated with the railway employees department of the American Federation of Labor.

25 Years Ago

(From Advocate, Sept. 30, 1894.)

The Ladies Cycling club made a trip to Utica yesterday. They left early in the morning and took dinner in Utica, returning in the afternoon.

Miss Alice Bostwick entertained a number of her friends at her home on Grand avenue last night.

The thermometer registered 68 degrees at noon yesterday.

The Olive Branch lodge will celebrate its 50th anniversary next month.

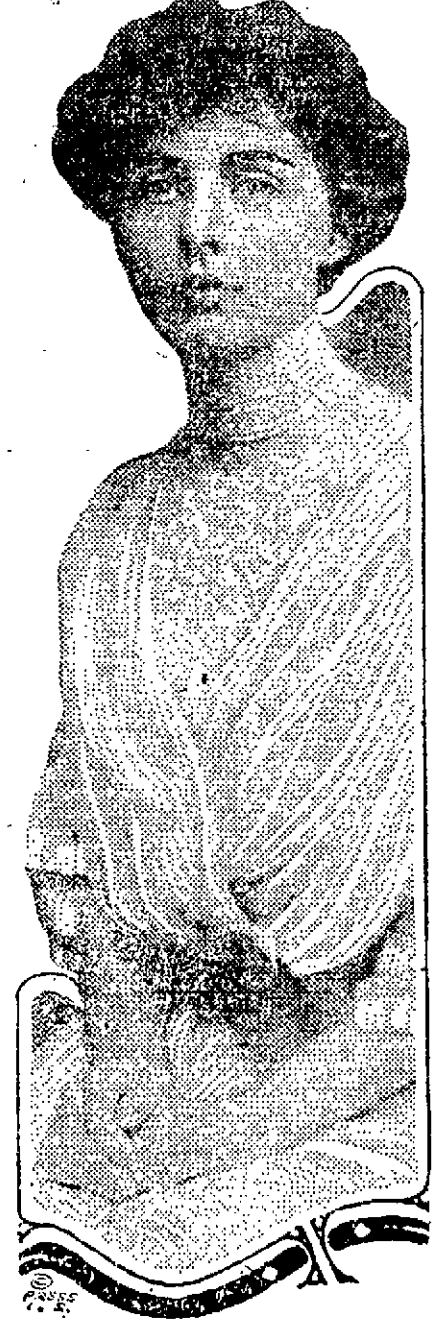

FIFTEEN YEARS AGO TODAY.

(From Advocate, Sept. 30, 1904.)

During the high wind storm on Thursday a large silver leaf tree blew down on the Newark and Mt. Vernon road.

The Ohio Fuel Supply company struck a well in the neighborhood of Utica that has a flow of 8,500,000 cubic feet a day.

JOINS THE LIST OF HOME COMERS

Mrs. John Hubert Ward.

Mrs. Ward, daughter of the late ambassador, Whitelaw Reid, is one of the many former U. S. girls residing in Europe, who have come, or are coming to the U. S. for a visit now that the war is over. Mrs. Ward has been serving as vice president of the American Red Cross in London.

NATIONAL EDUCATOR STARTED TEACHER'S COTTAGE PLAN IDEA

Josephine Corliss Preston.

Miss Josephine Corliss Preston, president of the National Educational association, the third woman to occupy that position in the history of the organization, has been known nationally among educators for a number of years. She was the originator of the teacher's cottage plan and she has put the idea into actual practice in the state of Washington, where she is superintendent of education, and now beside many a district school building stands an attractive "luncheon" which is "teacher's house."

"WONDERFUL" MRS. NICHOLS FIRM OPINION

"I'm Better and Stronger In Every Way, Since Taking Trutona," She Declares.

Portsmouth, Sept. 29.—"It's wonderful," was the brief yet convincing manner in which Laura Nichols, 44 years old, of 517 Seventh street, Portsmouth, recently expressed her high regard for Trutona, the perfect tonic.

"I had been suffering from a nervous trouble for the past five years," she said. "My stomach was out of shape, too. My appetite was poor and I was unusually in a constipated condition. For the past two or three months I haven't eaten hardly enough to keep a bird alive."

"The good I've derived from Trutona in the short time that I've been using the medicine is simply wonderful. Why, I haven't experienced one of my nervous spells since I began using Trutona. As for my appetite, I can eat anything now and I enjoy the food more than I have for some time. In short I feel better and stronger in every way now. I think Trutona is a wonderful medicine and I can recommend it to anyone troubled as I was and feel sure it will help them."

Trutona is especially beneficial for stomach, liver and bowel troubles, catarrhal complaints, nervousness, sleeplessness, loss of appetite and the like and has proven an almost unfailing reconstructive tonic for overcoming after effects of pneumonia, influenza, deep cold and the like.

Trutona is now being introduced and explained in Newark at W. A. Erman's Arcade Drug Store.—Adv.

Little Pay but Much Dignity.

The Japanese policeman has little pay but much dignity, and a traveler in that country thinks that the smallness of his weekly income is partly compensated by the fact that he carries a sword. Armed and decorated with this weapon, he is an all-round admonisher and adviser of the Japanese public. The police tell the shopkeepers when to open and close their shops, censor plays and motion picture shows, tell people how to celebrate holidays, and have even been known to advise them as to the number of rice cakes that might properly be given as New Year presents. On the other hand, according to this observer, the police are not much interested in the behavior of burglars, and are quite likely to refrain from mixing in such matters. Possibly the criticism is not altogether just, but it is not impossible that the small pay may provide an argument for not engaging in the more serious risks of the occupation.

Powerful Explosive.

A new and very powerful explosive, which may be used in mining and for other purposes, is lead azide, a salt of hydrometric acid. This acid forms a great number of salts, as mercury azide, silver azide and sodium azide. Large crystals of lead azide and mercury azide have been found to be very sensitive to mechanical shocks, the sensitiveness increasing with the size of the crystals. Even the breaking of a single large crystal is said to bring about explosion.

Knew When to Behave.

Donald was usually mischievous and needed speaking to frequently. So his mother always cautioned him before company arrived to be on his good behavior. One evening one of the guests, observing the small boy was quiet, asked him if he was always so good. "Oh, no," replied Donald, frankly; "but I'll catch it if I don't behave while company's here."

"Stickingness."

"A rolling stone gathers no moss," but lots of moss gathers on the man that does not find his place and stick like a dog to the root.

"BAYER CROSS" ON GENUINE ASPIRIN

"Bayer Tablets or Aspirin" to be genuine must be marked with the safety "Bayer Cross." Always buy an unbroken Bayer package which contains proper directions to safely relieve Headache, Toothache, Rheumatism, Neuralgia, Colds and pain. Handy tin boxes of 12 tablets cost but a few cents at drug stores—larger packages also. Aspirin is the trade mark of Bayer Manufacture of Monoaceticacidester of Salicylicacid.—Adv.

Cheery Kitchen.

Women who perform their housework unaided should see to it that the kitchen is made as cheery and convenient as possible. Perhaps, if many a housewife's steps were counted, it would be found that she travels several weary miles each day, yet a great deal of this unnecessary exertion could be avoided if her kitchen were fitted up with a few labor-saving devices and all surplus furniture, pictures and sundry shelves that catch dust and make a lot of work were removed.

Washing Enamel.

All dirty marks on white enamel should be rubbed with a piece of flannel moistened with methylated spirit. Then wash the enamel with warm soapy water, dry and rub with a flannel sprinkled with whiting. Polishing with a dry duster completes the process. White enamel furniture treated in this way from time to time retains its brightness for a long period.

Even in trying to make things go as far as possible it isn't necessary to stretch the truth.

TRY READING AT 14 INCHES

CAN you make it? Print nice and clear? And can you keep the reading up hour after hour without any noticeable strain? Can you also see as far in the distance as you should? If you answer "yes" to all these, there is a likelihood that your eyes are about as they should be. But if you do not pass these tests satisfactorily, better see us.

PLUMB PLAN LACKS MONEY

Bonds Could Not Be Sold On Proposed Terms

TALK CHEAP, CASH DEAR

Big Scheme Breaks Down at the Start

The first step in the plan for the nationalization of the railroads which is known as the device of Glenn E. Plumb, a Chicago lawyer, is, of course, the purchase of the entire railroad system of the country by the government of the United States.

According to Mr. Plumb, who is the attorney of the organization of railroad employees, the price should not be more than \$12,000,000,000. It is quite likely, however, that the cost to the nation would not be less than \$19,000,000,000. That would be the mere trifle of \$7,000,000,000 more than the sum the spokesmen of the railroad brotherhoods usually mention.

The price could not be made less than whatever amount the highest courts of law might adjust fair and reasonable. Anything below that limit would be confiscation, a wrong which is forbidden by the constitution of this republic. It is also made impossible by the sense of justice and right which is the pride of the American people and the foundation on which all property rights are based.

It is certain that the cost of the railroads could not be fixed by the present market value of their stocks and bonds. Those securities have been too much depressed by the government's failure to make a success in operating the railroads, since it took possession of them, as a war measure designed to facilitate war movements and war tasks, regardless of expense and of the general welfare of the country.

On the basis of reproduction cost—what it would take to replace the railroads if they did not exist—the value of the property the Plumb plan would nationalize is probably more than \$19,000,000,000. On the basis of earnings, before the government seized the lines, it is at least as much as that great sum.

There is no adequate provision in the scheme of the railroad brotherhoods for obtaining such an enormous amount of money. They propose a gigantic transaction, comparable with the financing of the war, without showing how twenty billion dollars, more or less, could be found to pay the cost. Attorney Plumb says that four per cent bonds would be issued to pay for the railroads, but he does not explain how they could be sold. The owners of the railroads could not be forced to accept them at par unless they were worth that price in the open market. Anything else would be clear confiscation of a part of the property taken from the railroad stockholders and bondholders.

To attempt to sell enormous issues of bonds, in time of peace, for a purpose obnoxious to the bankers, the capitalists and the investors of the country, including those of small means, would surely break the market for all government bonds. War bonds which bear interest at four and three-quarters per cent are quoted below par today. If it were attempted to sell from twelve billion to twenty billion dollars of additional bonds, in peace, the interest would have to be not less than five and one-half per cent, or else the price would fall so far below par that the discount would virtually raise the interest to that rate.

Is it not clear that the Plumb plan stands on a false bottom, in the vital matter of financing? It rests on the assumption that many billions of dollars might be obtained much more cheaply and easily than the government could get the money. It proposes a business impossibility, and all of its calculations of profits and income are built on that quicksand foundation.

The purchase of the railroad system of the United States can be easily managed, in the dreams of enthusiasts for radical experiments of a socialistic nature. It is a simple matter, as long as talk is all that is required. To get solid cash, many billions of it, for any such purpose, is another thing, absolutely.

NEW IDEA IN TRANSPORTATION

Trains to Slide on Runners, Separated From Track Merely by Thin Film of Water.

Looking toward the transportation facilities of the future, an American electrical experimenter believes that the chief means of travel will be trains without wheels, running on single tracks, and moving almost without friction because they will slide on runners separated from the track by a thin film of water. In short, the fact that one plate of glass will glide practically without friction over another if there is a thin layer of water between them will be applied and worked out in running a train. The idea of a train without wheels is sufficiently surprising, but, according to the writer, a Frenchman had invented such a train just before the Franco-Prussian war, and the project was not resumed afterward, although a later French inventor made some important improvements. The advantage over modern transportation, if such trains become practicable, is prophesied as noiselessness of operation, equal carrying capacity, and about twice as much speed. The idea looks visionary; but after all it is not wise to distrust possibilities for that reason.

TO BE NEW WORLD'S WONDER

Japanese at Work on Statue of St. Nicholas, Cutting It From the Solid Rock.

On the Isle of Cow's Head, in that beautiful inland sea, which has been called the Mediterranean of Japan, a ledge of rock overlooks the water, and here a small army of Japanese workmen are busy at the first cuttings that will eventually carve out the largest statue in the world. The Colossus of Rhodes, at one time one of the seven wonders of the world, is said to have been 120 feet high—a small thing compared with the figure of Liberty that stands 351 feet above its pedestal in New York harbor—but the Japanese statue will be of even greater magnitude. Following the line of the natural rock it will be a reclining figure 240 feet long, and therefore that much more impressive than the Buddha at Pegu, Burma, which from head to foot measures 182 feet. The Isle of the Cow's head is private property, and this brooding agnate adoration is a work of private enterprise. The reclining figure will be that of St. Nicholas, who founded the sect of Buddhism that bears his name. In the wooden model the saint lies asleep, facing whoever sees him, his head pillowed on a block, and his left arm extended along his side: a somewhat archaic figure, yet with considerable realism. For the enormous statue that is to be cut out of the solid rock from the model the trees and greenery of the Isle of the Cow's head will provide an excellent setting.

Rock Dust to Save Miners' Lives.

Perhaps the oddest, yet one of the most effective, means for preventing—or, at all events, minimizing—disasters in coal mines is the use of rock dust.

A lot of it is placed on boards hung by chains from the roofs of mine tunnels. Obviously in case of an explosion the boards will swing and the dust will be thrown off.

Following an explosion a roaring flame, let us say, is coming through the tunnel. The air is filled with coal dust (or possibly with inflammable gas) to feed it. But it meets a curtain of non-inflammable rock dust (discharged from the board shelves) and is thereby stopped. Rock dust will not burn under any provocation. Suspended thickly in the air, it acts like an asbestos curtain. The flame cannot get through it.

Lost Arms Without Pain.

Our story of a man being blown away, unhurt, by the explosion of a bomb which he did not hear must seem incredible to many people. Here is something like an analogy.

King Edward once brought together at his dinner table Rustem Pasha, who had had half his right hand and part of his arm torn off by a bear, and Sir Edward Bradford, who had had his left arm up to the elbow munched away by a tiger.

The two men compared notes. Neither had felt the least twinge of pain at the time. They imagined that their intense desire to save their lives dulled all other senses.—London Chronicle.

Bismarck's Wine Thirst.

In his choice of drinks Bismarck displayed a somewhat unpatriotic spirit. Talking to Mr. John Booth in 1879, Bismarck confessed that when stationed at St. Petersburg, he used to drink two bottles of champagne a day.

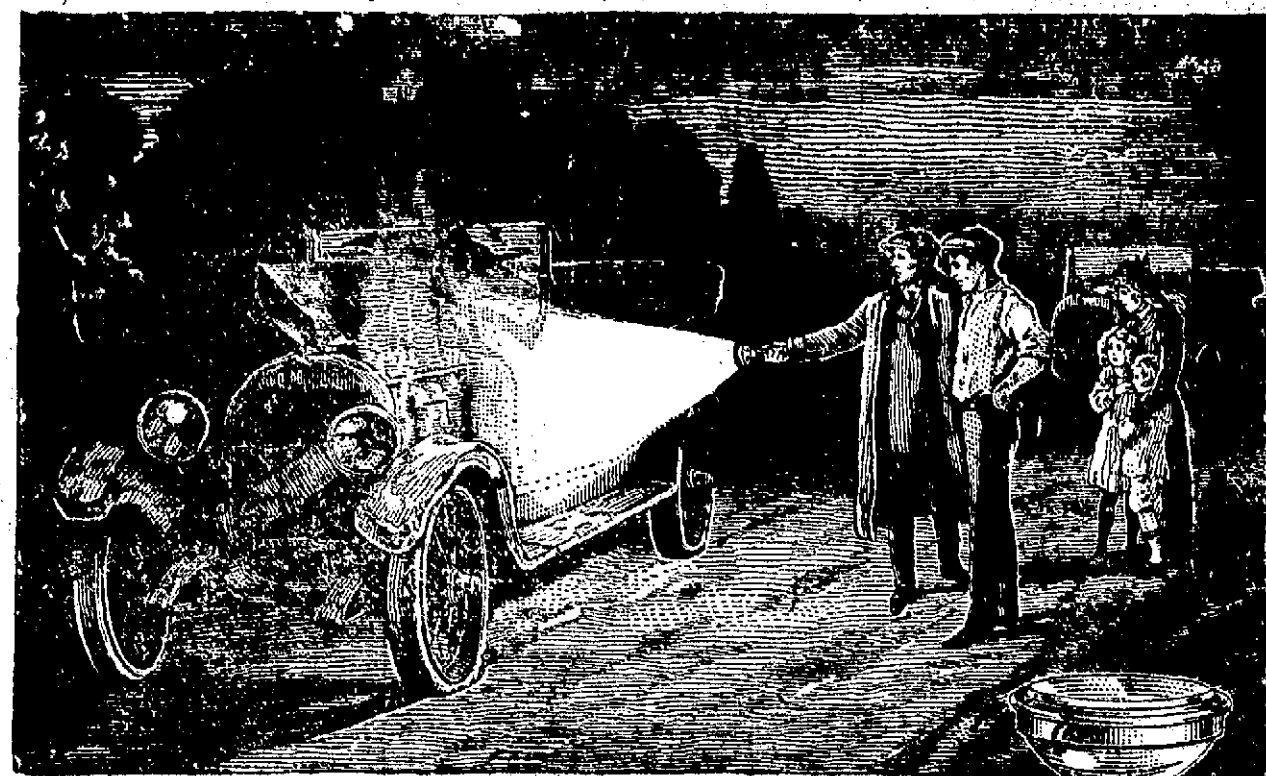

He estimated that altogether he had drunk 5,000 bottles of champagne and smoked 100,000 cigars.

On another occasion Bismarck declared that beer "makes men stupid, lazy and useless. It is responsible for the democratic nonsense spouted over the tavern tables. A good rye whiskey is very much better."

Chilean Nitrate Needed.

In spite of the prophets of disaster, the war did not ruin the Chilean nitrate industry; instead, military needs created an unprecedented demand. Now that this has ceased, the Chilean pessimists are once again predicting ruin, but El Industrial of Antofagasta says there will now be a greater demand than ever for fertilizer and that artificial nitrates have failed even to rival the natural product of Chile.

HEAR PETITION FOR ROAD TO BUCKEYE LAKE

County Commissioners C. D. Lake, J.
E. McCracken and J. C. Butt are at
Hebron today attending a hearing of
the state highway commission on the
petition of a change in the inter-county
highway from along the old Ohio canal
bank to what is known as the Lake-
side drive.

The proposed change would start
the National Pike east of Hebron
through the village and would parallel
the Ohio Electric until it joined the
present road leading into Buckeye Lake
Park. It would then follow the barge
bank to Lakeside, until it joined the
Lancaster-Newark road which goes to
Luray, joining the National Pike at
that place.

The proposed change would give an
inter-state road into Buckeye Lake
Park. It would be welcomed by the
hundreds of thousands of tourists who
visit that resort every year. It would
be either a water-bound macadam or a
tar-bound road and would be kept up
under the supervision of the state.

The proposed new highway was peti-
tioned for several years ago by citizens
along the right of way and it was
granted by a former board of county
commissioners but never opened up.

The state highway commission now
proposes to follow this road and
make it an inter-county highway.

ADMITTS GUILT; GETS SUSPENDED SENTENCE

George Reed, alias George Long, in-
dicted by the grand jury for burglarizing
Mitchell's clothing store, several
weeks ago changed his former plea of
not guilty to guilty in common pleas
court today. Reed was sentenced to
the reformatory and placed upon proba-
tion. Dale Slater, jointly indicted
with Gilbert Eliafer for highway rob-
bery changed his former plea of not
guilty to guilty. He was sentenced to
the Ohio State reformatory and placed
upon probation.

THREE NEWARK BOYS ENTER NAVAL SERVICE

A navy recruiting station has been
opened above the Kaufman confes-
sionary store in West Main street and
yesterday boys, all 17 years old signed
up for duty.

These enlisting were George Hoag-
wood, 17 of Route 1, E. C. Warner,
17, Route 4, and Ralph B. Leah, 17 of 62
High street.

LIBERTY TWP. SUNDAY SCHOOLS NAME OFFICERS

The Liberty township Sunday school
convention was held at the Harmony
Baptist church, Sunday afternoon. The
convention was in charge of Willis
Adams, township president, and the
following program was rendered:
Devotional, led by Rev. Mr. Huston.
Report of last convention.
Report of schools.
Election of officers.
Miss Brinkhoff of Utica who during
the war was a nurse for little children,
gave a very interesting talk concerning
her work. She made it clear that Bible
school workers have the training of
little children and the responsibility of
molding their future lives.

"The Importance of Missionary
Work in the Bible School" was pre-
sented by Mrs. Huston, missionary su-
perintendent of Delaware county.
"Secondary Work" was presented by
A. W. Pitch of Outville, county presi-
dent of boy's work.

The convention was closed with an
address by Rev. Mr. Huston on the
subject, "What is in Thy Hand?"

The following officers were re-elected:
President, Willis C. Adams.
Vice President, T. J. Dietner.
Secretary-treasurer, Miss Elso Foster.
Elementary superintendent, Nina
Whissen.

Secondary superintendent, Hazel
Saxton.
Teacher Training superintendent,
Blanche Bull.

Adult Organized Bible class superin-
tendent, C. D. Adams.
Home department superintendent,
M. A. White.

Temperance superintendent, Flora
Dishennot.
Missionary superintendent, Martha
Pickering.

The Jersey township convention will
be held at the Universalist church,
Sunday afternoon at 2 o'clock.

St. Albans township convention will
be held at the Wesleyan Methodist
church Sunday evening at 8 o'clock.

OPENING WEDNESDAY BADER'S MUSIC SHOP

Wednesday is opening day at Bader's
Music Shop 23 North Third street.

This shop has been tastefully
decorated and refurnished and presents
a most attractive appearance. Sound
proof booths have been installed to ac-
commodate purchasers of records. These
booths will enable purchasers to listen
to their favorite selections without in-
terruption to other patrons. A full and
complete stock of Columbia Grapho-
nols and records will be carried in
stock as well as the latest musical
pieces. The public is cordially invited
to call Wednesday, opening day and
inspect this new store and hear the
latest hits in music.

THORNVILLE

Mr. and Mrs. H. O. Orville, wedding
visitors from Columbus Thursday.
E. C. Cooperider and Luther Lynn
were business visitors in Newark on
Monday.

Frank Brocus was in Newark Tues-
day.

Charles Alspach returned to his home
here Friday evening. He has been in
the army.

Albert Yost, C. L. Brown and Ed
Swinehart were Columbus visitors
Thursday.

Rev. H. P. Long and family left for
Wooster to visit his mother and other
relatives. He will return Friday even-
ing.

Peter Smith of Glenford is visiting
his old comrades here this week.

H. H. Edmund was a business visitor
in Newark Monday.

ICE DEALERS DENY GUILT.
Toledo, Sept. 30.—Jos. M. Murphy,
secretary and general manager of the
Citizens Ice company, and James E.
Hardman, manager of the Schuller Ice
and Coal company, who were indicted
Saturday by the Lucas county grand
jury for alleged combination and price
fixing, today pleaded not guilty when
arraigned in common pleas court. The
trial will be held in the near future.

LOOK TO SARDINIA FOR CORK

World Turning to That Island for Pro-
duction of Material So Much
In Demand.

Cork has probably passed olive oil
as the leading export of Sardinia, and
Commercial Attache A. P. Dennis
states that recent production has been
so stimulated that a large factory at
Tempio is quadrupling its capacity.

The bark is stripped from the tree
once in nine years. At the Tempio
factory the dried bark is first thor-
oughly steamed and flattened out by
hydraulic pressure. It then remains in
piles about 30 days, when it is taken
out covered with blue mold, and is
carefully scraped on both sides and
cut into widths varying according to
the lengths of the cork stoppers de-
sired. The strips are cut by hand into
cubes, a process requiring highly skilled
labor, with much care in picking
out defective pieces. The corks have
been rounded and tapered by high-
speed cutting machines, but a new
abrasive process is claimed to reduce
the waste of this finishing from 20 to
30 per cent. Before the war the fine
dust sold in Germany for unknown
use for about \$90 a ton. At Terranova
the cork is differently utilized, the
best being baled in sheets for ship-
ment, while the inferior is coarsely
ground and used with a magnesium
surface for walls and floor coverings.

The war demand was for cork trench
mattresses, which were both light and
afforded protection from cold and
moisture.

MOTOR CARS ON STAGE LINE

Old Four-in-Hand Vehicles on Nevada
Roadways Succumb to March
of Improvement.

Stage lines in Nevada have aban-
doned the time-honored four-in-hands
of horses in favor of high-powered
motor busses.

Daily, with clocklike precision,
these big cars pound along the 100
miles of sun-bitten alkali roadway car-
rying passengers and mail. In much
less time and far greater comfort the
ranchers and business men of today
speed over the same roads where once
rattled the four-in-hand stage, slow,
jolty and not at all certain of reach-
ing its destination.

The cost of transportation by motor
bus compares favorably with operating
expenses of the horse stage. The prop-
rietors of the lines are thorough busi-
ness men and can tell to the penny the
gasoline mileage of every car, the oil
consumption and just how much service
is obtained from tires.—San Fran-
cisco Bulletin.

Land Reclamation Scheme.

The British board of agriculture has
inaugurated a scheme for the reclama-
tion of land on the Lincolnshire shore
of the Wash. A bank is being con-
structed from Wainfleet, a little below
Skegness, to Freston, near Boston
(Lincolnshire), commencing at the
Wainfleet end, and by this means it
is hoped to recover about 12,000 acres.
The work is in charge of a resident
engineer in Wainfleet and will employ
a large number of men, who will be
selected from demobilized soldiers and
sailors, and thus obviate the taking
away of labor from agriculture. It is
said that in the middle of the last cen-
tury a reclamation scheme was started,
and it was then estimated that a suffi-
ciently large area would be redeemed
from the Wash to form a new English
county. The enterprise was abandon-
ed, but experts have always maintained
its practicability, which is now in the
course of being tested.

Saw George Eliot's Ghost.

The death of Mrs. Katherine Mac-
quoid, the veteran novelist, at the great
age of ninety-three, severs another
of the few remaining links with the
Victorian past. A contemporary of George
Eliot, Mrs. Macquoid used to tell how
she once saw the famous writer in a
vision.

When George Eliot went to live at
Cheltenham Mrs. Macquoid proposed to
go and call on her. But before she could
do so a remarkable and tragic thing
happened.

One night Mrs. Macquoid awoke sud-
denly, and saw the figure of George
Eliot standing between the bed and
the wall. The apparition was distinct
and unmistakable. On the following
evening Mrs. Macquoid learned of
George Eliot's death.

Things Looking Up in Serbia.

There are many evidences of bet-
tering conditions in Belgrade, Serbia. Bel-
grade university opened a short time
ago. The American Red Cross is now
erecting barracks to house the students
during the summer.

In the spirit of the people there is
a marked change for the better in the
last few months. Social gatherings are
more frequent, and a few moving pic-
ture theaters are in operation.

Shops in the city are gradually re-
filling with stocks. Prices are high.
Reports from the interior indicate a
large grain harvest with a possible
surplus for export in South Serbia.
These reports have had encouraging ef-
fect on life in the capital.

China to Make Cement.

The cement requirements of North
China will probably soon be supplied
by domestic production. One large con-
cern is said to control this industry
in North China, and its plant is located
at Tangshan, a small town about 100
miles northeast of Tientsin, on the Pe-
king-Mukden railway. It is equipped
with modern machinery, and secures
its supply of limestone on the site of
the works.

Handsome Linens To Adorn Your Dining Table

ANTICIPATING your wants for the Thanksgiving and holiday season, we have been collecting for some time a beautiful collection of staple and fancy linens, and there will be great satisfaction in having the dinner table covered with just such fine linens, especially on account of the great scarcity of linens. In addition to fine bleached damasks—pattern cloths and napkins to match, will be found the handsome center pieces and small doilies to match, that make such an attractive luncheon table.

IN THE MADEIRA LINENS

are handsome 13-piece luncheon sets, including the large center—six plate and six tumbler doilies to match. Or you may match up a set in any way you desire. In the open stock are various patterns in the large centers with small plate and tumbler doilies to match—oval shape doilies in large and small sizes—as well as beautiful napkins in both scalloped or hemstitched edges.

IF YOU PREFER A MORE LACY EFFECT

you will like a table furnished with Spanish lace pieces. Various designs in large center pieces—oval doilies and the round plate doilies.

LINEN SCARFS AND LUNCH CLOTHS

come in many beautiful designs—Some are embroidered in solid work—others eyelet designs and others hemmed with flit or other lace edges.

TWO SPECIAL VALUES IN FINE SCARFS

are offered for early buyers. Purchased for the holiday trade, but as they were shipped in early we offer them now.

A PRETTY FILET SCARF AT \$1.50

has a linen center with wide filet lace edge in different patterns.

ANOTHER SPECIAL SCARF AT 75c

has white center with wide lace edge, in pretty designs.

W. H. Mazy Company

SHANTUNG FURNISHES MANY OF LUXURIES TO FOLKS IN AMERICA

Washington, D. C., Sept. 30.—"My brain simply reels with all this talk about Japan and China, and the League of Nations," pouts daintily Miss America, as she presses her hands to her head, where her rebellious tresses would be falling down were it not for a net of human hair—from Shantung.

"Come down here to get away from this talk about the peace treaty; China's a long way off anyway," growls Mr. Brown, as he strolls along the beach, in a pongee suit—from Shantung.

With this introduction the National Geographical Society issues a bulletin concerning the industries of Shantung, which range from making hair nets to building railways, quoting from a communication to the society by Maynard Owen Williams, as follows:

"When this speedy traveler made hair nets a necessity to the families in a remote province of 30,000 people, he found a little."

"The almost invisible net serves fashion to preserve for another hour the loveliness of a moment. But the making of hair nets enables whole villages of wrinkled old women of Shantung to put a little more food into ever-hungry stomachs."

"When the American male emerged from the wooden of former convention and donned the dapper suit of cool pongee, all the silkworms in Shantung had to work overtime, and their masters beside a stupor of exhaustion and against the dish. A pongee-clad crowd at Bar Harbor means a better-fed population in Weihaiwei."

An American woman wears some Chinese lace, and thanks her and the purchases of her friends, almond-eyed girls are being trained in mission schools 8,000 miles away.

"The doughboy back from the war is also a booster for Shantung, though perhaps he doesn't know it. As he tells of the ever-smiling Chinese whom he saw making roads in France, he testifies to the fine qualities of some of the world's best laborers."

"The Shantung coolie did his fair share of war work. A hundred and fifty thousand of him went out to better living conditions and a wider outlook when the British troops shipped steamers from his penitential home. He found reds of him dropped shovel and seized gun or fought with clubs and axes

when the breath of Chateau-Thierry yawned."

"Now some of the Shantung coolies are being returned to their homes with new thoughts and ideals, speaking Pinyin-French, Pinyin-English and what not, but with wonderful tales to tell of the men by whose sides they fought."

"When China wants railways built or canals dug, here are the boys who showed the best of all engineers what loyal labor really was."

"Nor will they have to wait long. An American corporation is only waiting for better transportation facilities before beginning to dredge the river of the Grand Canal, which was binding China into an empire two centuries before the Great Wall began to shut out the rest of the world and 400 years before the birth in Bethlehem of the child of whom was to affect China in a degree second only to Shantung's great Sage."

"When 30,000,000 people whose idea of a day's work is 15 hours are crowded into a province the size of Iowa, there must either be industrial development in silk, rice and hair or periodic migrations of labor to less thickly settled parts of the world."

"In the summer of 1918 the Shantung north along the Amur mining gold or harvesting soy beans in Manchuria. I have seen him carrying Harbin flour aboard the Sungari steamers, and he had built it up on the Trans-Siberian."

"I have seen him juggling gaily painted sticks at the Nippon Novogorod fair, and companies of Shantung coolies fought to the Bolsheviks beside the Kremlin and against them near Tchita. In ruined Yankai Shantung coolie, heavily dressed against the bitter cold of the Amur plateau, rolled into town ahead of twenty of his countrymen who brought flour to that starving city."

"Soon the Japanese will be laying the rails for their new railway concession from Kaomi, near Tsingtau, to Haichow, whence the Trans-Asiatic trunk line, which will be the Trans-Siberian what the Union Pacific is to the Canadian Pacific, is some day to link Lanchow and Kashgar with Peking and Ussuriysk. Another Japanese line will run from Tsinan to cut the Peking-Canton line at Shantungfu."

"In building these railways the Shantung coolie will have his rightful place, and skill gained in France will stand him in good stead in linking his home province to the capitals of Eurasia from Madrid to Tsinan."

GRANVILLE

Granville, Sept. 30.—Mrs. L. L. Shepard addressed the women in the Baptist church this afternoon and at 7:30 an address will be made to both men and women. The "Mormon Menace" will be the subject with which she will deal.

The second meeting of the Travelers' club was held in the community rooms Monday afternoon. The program was opened with a paper presented by Mrs. John Owen, on "The Unspeakable Turk." Mrs. Owen gave some personal reminiscences of her visit in Europe several years ago, adding greatly to the interest of the paper. At the conclusion of the paper Mrs. M. E. Stickney gave some piano selections of Turkish music. Mrs. E. P. Cook gave a talk on "War Equipment" and displayed some helmets, shells and gas masks which her son brought from overseas.

The concluding number on the program was the address by Mrs. Zella A. Dixon on "Nationalities in the War." Mrs. Dixon has long been affiliated with the Travelers' club as an active, associate and honorary member. At the close of the program the club adjourned to a business session. Mrs. Bawden was elected to active membership and nine other women were elected associate members. The club voted to give the club magazine to the village library for a year.

Leut. Waldo Heinrichs will give a lantern slide lecture in the Baptist church Wednesday evening at 7:30. His subject will be "Aviation" and the slides are from a collection of pictures taken while he was in active service as an aviator in France.

A dinner will be served in the Presbyterian church Saturday evening from 5 to 8 o'clock.

The Kings Daughters met in their rooms Monday evening with Mrs. J. M. Swartz as leader. The delegates elected to the state convention which meets in Bellefontaine next week, were Miss Gertrude Carpenter, Miss Blanche Horton and Mrs. Jean Labak. The club voted to give \$100 to the home at Syracuse.

Our Boys and Girls

One thing very important for mothers—milk babies is their regular bath every morning in water not too cold nor too hot and, while moulding every muscle carefully with the hands, which have been rubbed with olive oil, be very careful not to get it into the eyes, but don't be afraid of getting too much rubbed into the little body.

Have every article of clothing clean every morning. Boil all of the clothes, never starch the little dresses. The oil has a tendency to stain everything, so use plain little slips. Keep the baby in the open air as much as possible. This does not mean rolling it up and down in the carriage, but letting it sleep out in a well covered carriage where there is plenty of sunlight, but not where it will shine in the baby's face or eyes.

Sometimes a rash will come from the oil, but it is only the poison coming out. If it seems to irritate the baby, put the rash lightly with a piece of absorbent cotton that has been dipped in the warm water in which a little powdered borax has been dissolved. Then dust on thickly Fuller's earth.

Food for babies visiting in the country, and for children also, is often very different from that obtained in the city. In most large cities milk is bottled, and inspected or certified, so that one may feel reasonably safe in using it for a baby, but on a farm it is less carefully looked after. While it is no doubt fresher, it may be dirty and very badly cared for.

Cows used for a baby's milk should have had the tuberculin test given them; they should be kept clean and have a reasonably clean stable, the hands of the person who milks the cows should be washed before milking and the milk should be received in a perfectly clean pail. It should then be strained and quickly cooled and placed in glass bottles with tight fitting caps.

The bottle for the baby should be set aside in a place that can be kept below fifty degrees Fahrenheit for four or five hours, if top milk mixtures are to be used. If not the milk may be made up for the baby as soon as it has been strained and cooled. Do not give a baby warm milk direct from the cow.

J. L. CARPENTER DIES

Athens, Sept. 30.—Jerry L. Carpenter, aged 80, died at his home here yesterday. Mr. Carpenter, a former Meigs county resident, was prominent 40 years in Republican politics, having served in both the Ohio house and senate.

"I love, you for yourself alone, Miss Millyums."

"That is a loan on which you can always borrow trouble, Mr. Cashunter."

ABE MARTIN

Copyright National Newspaper Service.

"There's few purtier combinations 't my mind than a snowy white shirt and a pair of bright new gaiters," said Gran'maw Pash, today. "What's become of 't' ole time travelin' specialist that looked like a Russian Socialist and cured ever'thing that couldn't be cured?"

GRATEFUL WOMAN RELATES HOW SHE GAINED STRENGTH

This Ogdensburg Resident Was Weak and Without Ambition Until She Tried This Tonic

"I feel it a duty to tell those who suffer as I once did about the remedy that restored my strength and happiness after many months of suffering," says Mrs. B. Ellis, who lives at No. 53 Patterson street, Ogdensburg, N. Y.

"My blood was depleted and weak and as a result I became so nervous that I couldn't sleep well at night and was easily startled. I suffered from indigestion and had night sweats that left me very weak. I was cold most of the time and trembled all over."

"I had often heard of Dr. Williams' Pink Pills and decided to give the remedy a trial and my experience justified all the good words that I heard of the pills. I began to gain strength in a short time and gradually the color came back to my face and I knew that my blood was becoming richer. My stomach gained strength as did my nerves and I now feel as well as ever. I sleep well and am rested and enter upon the tasks of my home with new energy and ambition. Dr. Williams' Pink Pills are an excellent tonic and I have recommended them to many of my friends."

Dr. Williams' Pink Pills are sold by all druggists or direct from the Dr. Williams' Medicine Co., Schenectady, N. Y., 50 cents per box, six boxes \$2.50, postpaid. Write for the free booklet, "Building Up the Blood."

Most Women Are Choosing Their Dress Fabrics & Trimmings HERE NOW!

AS they realize that here in the big daylight department they find dependable qualities in the new dress fabrics for fall and winter wear for much less than they can buy them later in the season—these for instance.

It is the continuous advertiser that grows. A single drop of water on a stone will not make an impression. It takes a continuous dropping of water to wear through the stone and make an impression.

ANNOUNCEMENT!

We announce the Opening of our
NEW MUSIC SHOP

WEDNESDAY,
OCTOBER 1ST

23 North Third Street

Everything in GRAPHONOLAS,
RECORDS and ROLLS

COME IN AND HEAR THE
LATEST HITS
IN OUR
SOUND-PROOF BOOTHS

BADER'S
MUSIC SHOP

Milady's Boudoir

Beautiful Teeth.

Every woman should be very particular to remember that the teeth and the condition of her teeth are just as important as a beauty sense as is the care of other members of the beautiful body and should have as much attention.

Not only is it necessary for the sake of the teeth themselves, to have them properly treated and regularly cared for, but physicians are becoming more and more conscious of the fact that the teeth are largely responsible for the mental, moral and physical condition of the individual.

A few of the better known illnesses which have been traced to bad teeth include forms of rheumatism, carbuncles, boils, anemia, adenoids, tonsillitis, glandular swellings, neuralgia, toxic neuritis, appendicitis, pleurisy, nephritis, diphtheria, laryngitis and heart trouble.

Brush the teeth night and morning and, if possible, after each meal. It is especially important, however, to remove all decaying particles before going to sleep, lest they become poisonous cases in the night when there is not enough saliva in the mouth to prevent harm.

Another effect of bad teeth, aside from spreading germs, is that food, insufficiently chewed, is not properly prepared to enter the stomach and is not so mixed with saliva as to ensure digestion before being swallowed.

The Voice.

There is nothing so beautiful as a low, musical, well modulated voice, and nothing more disagreeable than a rasping, loud, metallic one. The person with a hard, unsympathetic voice, totally lacking in the warm resonant tones, is usually a person to be feared. This rule has many exceptions, however.

In the first place many women do not realize that their voice is loud and harsh. Go into a quiet room and talk aloud to yourself. If your voice pleases you it will nearly always please others, others, but if your voice lacks that low, pleasing quality, begin at once to attend to it. When you have talked to yourself, try to find the pitch where

your voice sounds the most musical and then try to hold that tone.

Every once in a little while during the day, listen to yourself and see whether you have retained the pitch you have started out to make for yourself. Sing or hum in a low tone whenever you can so that the speaking voice will be come smooth and musical. You will be surprised to see how much this helps.

Sustain the note at the end of each word, for most of us have the habit unless we are particular, of cutting off sharply the end of a word, which produces a most unpleasant effect. Cultivate a happy disposition and it will make the times of your voice soothing and musical, while an erratic, disagreeable frame of mind will make itself apparent in a high, rasping, sharp voice.

Every Day Etiquette

"Should a woman speak of her waitress or maid as the girl?" inquired Helen.

"No. A woman out at domestic service is either a cook, laundress, housekeeper, nurse or housemaid and should be called by either one of these names. Note often the mistress calls her help a maid," returned Mrs. White.

"What is the etiquette of cards in case of a tea given by a woman to her friends?" asked Maude.

"On the occasion of a tea the hostess sends cards to her general list of friends. Thus she notifies them that she will be at home on a certain day. They are not obliged to go, but if they do they leave cards so that the hostess may be reminded of their presence and may give them credit for coming. If they cannot go cards are sent on the day of the tea," said her mother.

We may build more splendid habitations, fill our room with paintings and with sculptures, but we can not buy with gold the old associations—Long-fellow.

There are about 11,188 square miles of peat bogs in the United States, capable of producing more than 12,000,000,000 tons of fuel.

My! what
a flavor and
ready to eat
